A. F. Official Vows Another Look At Marin Airport

The commanding general of the Air Defense Command has agreed to take another look at Marin County's request to install a county airstrip beside Hamilton Air Force Base and share use of the base control tower.

Promise of a new look was given by Gen. Robert M. Lee at conclusion of a two-hour discussion with Rep. Donald H. Clausen (R-Crescent City) and Marin County representatives Friday in Colorado Springs.

Air Force brass, including two colonels flown out from the Pentagon for the conference, spent the first one and one-half hours telling objections to the plan and showing slides of the Air Defense Command's operations, reported Carroll A. Snyker of the Marin County Airport Committee. But after hearing Congressman Clausen, Supervisors William A. Gnoss and George Ludy and other representatives of Marin, General Lee agreed the proposal merited further study.

Decision will be made at the Pentagon—probably when General Lee reports there in August en route to a new assignment in Paris, Snyker predicted.

Air Force objections arise principally from fear of difficulty in controlling small planes not equipped with radios, the Marin delegation learned. Marin representatives assured the Air Force that student fliers will remain at the present county airport north of Novato if clearance is given for the new strip.

Arthur Knutson, deputy county public works director and member of the airport committee, said the Air Force appeared particularly unhappy over plans for Bel Marin Keys, residential-commercial subdivision adjoining the airbase.

In 10 locations, Air Force and civilian aircraft share runway use, not proposed in the Marin plan, Snyker reported.

Big 3 Session On Test Ban Is Scheduled

President Rules Out U.S. Bombs In Atmosphere Now

WASHINGTON (AP) — President John F. Kennedy announced today an agreement with Soviet Premier Nikita Khrushchev and British Prime Minister Harold Mcmillan to hold a "high level" conference in Moscow to seek "early agreement on a comprehensive test ban treaty." The meeting is tentatively set for July.

Kennedy also announced that the United States will refrain from nuclear weapons tests in the atmosphere "so long as other states" do not test.

"We will not be the first to resume," the president said in an address prepared for commencement exercises at American University. "Such a declaration is no substitute for a formal binding treaty—but I hope it will help us achieve one."

The understanding on the Moscow meeting is that it will not be a Summit Session nor a foreign ministers conference but rather a meeting of representatives of Khrushchev, Kennedy and Macmillan, the representatives to be men who command their highest confidence.

"Our hopes must be tempered with the caution of history," Kennedy said of the conference to break the nuclear deadlock, "but with our hopes go the hopes of all mankind."

In making his announcement Kennedy moved swiftly from one area of crucial national concern to another. He was just back from Honolulu where he made a major plea to the nation's mayors to join in a campaign for racial readjustment. (See page 2)

Kennedy made the announcement and the declaration of his own limited no-test policy as two of the three major points of his speech at the university. In the third part he said:

"Finally, my fellow Americans, let us re-examine our attitude toward peace and freedom here at home. The quality and spirit of our own society must justify and support our efforts abroad."

In this obvious reference to burning civil right issues, Kennedy declared:

"It is the responsibility of the executive branch at all levels of government — local, state and national—to provide and protect . . . freedom for all citizens by all means within their authority. It is the responsibility of the legislative branch at all levels, wherever that authority is not now adequate, to make it adequate. And it is the responsibility of all citizens in all sections to respect the rights of all others and to respect the law of the land."

In some degree Kennedy's nuclear tetsing announcement served to set the stage for his four-nation European tour starting in about two weeks.

Kennedy said of the new agreement with Khrushchev to try for a nuclear test ban that it is true no treaty can provide "absolute security against the risks of deception and evasion."

"But it can—if it is sufficiently effective in its enforcement and if it is sufficiently in the interest of its signers—offer far more security and far fewer risks than an unbated, uncontrolled, unpredictable arms race."

With the announcement here of the Moscow conference, it was understood that preparations of U. S. and British plans for the meeting will be the major subject of discussion between Kennedy and Macmillan when the president visits the prime minister at the end of June.

BROKEN CHAINS—San Rafael police officer John Rosentangle points to one of the two chains which broke, sending the boom on which Francis Malcolm Fryberger was working crashing to the pavement.

Tree Trimmer Is Killed As Boom Chains Break

San Rafael Scene Of Accident

A 54-year-old crew foreman of a San Anselmo tree service firm was killed today in San Rafael when the boom on top of which he was trimming trees suddenly gave way and plummeted 20 feet to the pavement of Fourth Street.

Francis Malcolm Fryberger of 38 Mariposa Avenue, San Anselmo, was thrown head first from the bucket of the "high tender's" boom.

He was dead on arrival at San Rafael General Hospital at 9:15 a.m.

Howard Dohm, the other member of Fryberger's crew, said the heavy boom "dropped like a rock" at 8:45 a.m. to the pavement across the street from Rossi's Garage at 626 Fourth Street.

ADDED STRAIN

San Rafael Police Officer John Rosentangle said first one chain supporting the upper part of the boom snapped, then the other chain broke because of the added strain.

The upper part of the two-part boom is held in the air by the chains. Working levers, the person in the bucket can maneuver it to trim trees at varying heights.

Fryberger, with Dohm working on the ground, was trimming trees on Fourth Street to keep power lines free for Pacific Gas and Electric Co.

15-YEAR EMPLOYEE

Fryberger had been a steady employee of Sohner Tree Service Inc. of San Anselmo for 15 years.

Pending an autopsy to be performed at Keaton's Mortuary today, William Bradley, assistant county coroner, said the tentative cause of death was a "very severe" skull fracture.

John Franz, district engineer for the State Division of Industrial Safety, said the firm's equipment had never been inspected by his department because of lack of manpower.

He said he would send a man over today to investigate the accident and inspect the firm's equipment.

ACCIDENT SCENE — Francis Malcolm Fryberger was catapulted out of the bucket when it plummeted to the ground. The chains, which broke, raised and lowered the bucket when Fryberger worked the levers in the foreground.

Fairfax To Vote On Bonds

The Fairfax School District will have a $175,000 bond election tomorrow to authorize funds for a school expansion program.

Polls will be open from 7 a. m. to 7 p.m. at Deer Park, Fairfax Central and Manor schools.

The district proposes a $420,000 program to build seven more classrooms and acquire additional land including a site for a junior high school.

Passage of the bond issue would put the district at its full bonding capacity, and therefore it would be eligible to borrow $409,000 from the state.

A two-thirds "yes" vote is required if the bonds are to be issued.

Supt. Homer Sisk said the new classroom construction is necessary because the enrollment has increased from 848 to 920 during the current school year and is expected to reach 1,048 in the next three years.

If the bond issue is not passed, there would have to be larger class sizes at the schools and probably double session for the first, second and third grades, he said.

Two Negroes Assigned To Dorms In Alabama

TUSCOLOOSA, Ala. (UPI) — Two Negro students were assigned to dormitories today at the University of Alabama on the eve of the face-to-face showdown between Gov. George C. Wallace and the federal government.

Wallace himself planned to fly to Tuscaloosa later today to prepare for the confrontation tomorrow.

COUNTY EMPLOYEE PAY IS IN REVIEW

A proposed salary hike of nearly $100 a month for Asst. Coroner William Bradley was greeted with little enthusiasm today by Marin County supervisors. But the board gave tentative approval to some increases for Bradley and for personnel director and assistant county administrator.

The board began its review of pay raises for county employees as requested by department heads and Personnel Director Robert D. Elliott.

Elliott, promoted by the board two weeks ago from assistant personnel director to the head of his own department, recommended against a boost in Bradley's monthly salary from $634 to $726, as requested by Coroner Frank J. Keaton.

"We are somewhat pressed," Elliott declared, "to determine what the duties of the assistant coroner are in relation to those of the coroner . . . a job description for this position has not yet been written pending the attorney general's report on possible conflict of interest in the coroner's job."

He suggested, however, that Bradley be raised to $663 a month. Supervisors indicated they would go along.

County Administrator Alan Bruce told the board he proposed increases both for Elliot, as his former assistant, and Asst. Administrator John Barrows because "I have finally found a good working team and would like to keep it that way."

He asked for Barrows' salary to be increased from $795 to $871 and Elliott's from $694 to $760.

"They didn't come here last fall expecting any increases," protested Supervisor William A. Gnoss.

Bruce said both men were hired at advanced salary step positions, but it was "difficult to persuade them to come at even those ranges."

The board delayed until budget hearings any action on the increases requested by Bruce, but indicated they felt Elliott and Barrows had done jobs deserving some new benefits.

Supervisor George Ludy added that Elliott's increase should not, in any case, be based on his new title. "We may have changed the name, but it's still the same bird," he said.

Fishermen Say Waves Tossed Boat

SAN FRANCISCO (AP)—Huge 25-foot waves actually tossed a 50-foot fishing boat into the air, three crewmen said after the boat slipped into Fisherman's Wharf today with three cracks in the hull.

Jerry Livers, 24, of Napa, who was at the helm, said the boat flipped near Point Reyes last night, turned around in the air, then dropped so hard "it felt like we had hit the bottom or a rock or something; everything in the cabin flew loose."

He suffered a broken toe when a fire extinguisher fell on it.

Livers, Jerry McCullen, 25, also of Napa, and the skipper, Bob Fell of San Jose, battled eight hours to keep the boat, the Anna Alma, afloat.

The Anna Alma, from Moss Landing, had refueled in San Francisco, then headed for the salmon fishing season in Alaska but had to turn back.

Jeffery Michael Paganini, 18, who terrorized residents along Canal Street in San Rafael by hot-rodding up and down the street last January, will be committed to California Youth Authority.

Paganini was also on probation for a previous petty theft: Stealing a motor out of a car.

Worker's Death Caused By Ribs Piercing Heart

The death of John G. Freitas, Sausalito street maintenance worker, Thursday has been attributed to broken ribs which pierced his heart.

Freitas, 57, of 759 Bridgeway, died en route to a hospital after he was injured in the cave-in of a ditch in which he was working.

William Bradley, assistant county coroner, said today an autopsy showed Freitas' ribs were broken, probably when dirt caved down on him and he fell forward onto a concrete storm drain pipe.

Russell Lessig and Robert McGowan, both of Sausalito, were also in the ditch with Freitas but escaped injury.

Assembly Approves By Just A Hair Brown Measure On Withholding Tax

SACRAMENTO (AP) — Administration forces broke a 34-34 tie today and won Assembly passage of Gov. Edmund G. Brown's withholding tax bill without a single vote to spare.

The final tally was 41-38, or the bare majority needed to send the hotly disputed measure to the Senate.

The roll was kept open after the initial test resulted in the tie vote, giving the governor's supporters time to pick up the necessary margin. (See story page 2.)

Six Democrats at first sided with all 28 Republicans in opposing the bill that would inaugurate withholding of income taxes in July of 1964.

All the ayes on the final vote were Democratic.

In the meantime, the administration cleared the remainder of its program designed to raise 138 million dollars in additional revenue without changes in tax rates in an effort to prevent a state deficit.

The Assembly swiftly approved another administration proposal to eliminate income tax payments for low-income Californians. The vote was 73-0.

Then the lower house agreed, 45-22, to speed up collection of bank and corporation taxes—another in the series in the governor's tax revision plan. The bills now go to the Senate.

In debate over withholding, Assemblyman Nicholas Petris (D-Oakland) author of the bill, emphasized the 50 per cent forgiveness feature on 1964 incomes and denied that it was a double tax.

He called it a "truly effective" measure to modernize the state's tax collecting system and a vehicle for helping the administration balance its budget without more taxes.

Assemblyman Don Allen (D-Los Angeles) opposed it as "a bill of harrassment." He said it would drive the "final nails in the coffin of small business" because of the cost of setting up the withholding system.

Macmillan Orders Probe Of Scandal

LONDON (AP) — Prime Minister Macmillan returned from a golfing vacation today and ordered an inquiry into security aspects of the Profumo scandal which threatens Macmillan's own career.

The inquiry is being made by Lord Dilhorne, who as lord chancellor is Britain's highest legal authority.

He will determine if British Security was breached or was negligent as a result of former War Minister John Profumo's illicit affair with Christine Keeler, a 21-year-old red-haired party girl who at the same time in 1961, was sharing her bed with Soviet naval attache Capt. Yevgeny Eugene Ivanov.

SOVIET AGENT

Ivanov is generally regarded as a Russian intelligence agent.

Political sources said Dilhorne's report is in the works and probably will be completed this week. The report will be handed to Macmillan and Labor party leader Harold Wilson but may not necessarily be made public.

Meanwhile, Dr. Stephen Ward, the 50-year-old society osteopath who introduced Christine to Profumo, was brought into the Marlborough St. Magistrate's court today on a charge of living on the proceeds of prostitution. He was ordered held without bail for a preliminary hearing next Monday.

DENIES CHARGES

As Ward stood relaxed in the dock in a green sports jacket, pale blue slacks and open-necked shirt, his attorney said Ward "wishes to deny this charge most emphatically."

Chief Inspector Samuel Herbert of Scotland Yard told the court Ward likely will face a number of more serious charges.

Herbert said he opposed granting of bail because he feared Ward would interfere with prosecution witnesses.

NO COMMENT

Macmillan refused to comment on the Profumo affair and gave no public indication of concern. But the scandal rocking Britain could spell his downfall as Conservative party leader. His chance of survival depends largely on the showing he makes before Parliament next Monday when asked to explain his role in the background to the intrigue.

If Macmillan fails to give satisfactory answers, one parliamentary informant predicted, there is little doubt he will be pressured even more to resign.

The gravest threat came from some of Macmillan's own Conservatives who accused him of negligence and naivete in not unearthing the true story of the Profumo affair earlier.

With an egde of about 100 seats in the House of Commons, the Conservatives under normal circumstances could easily turn back any opposition move to bring down the Macmillan government.

But some Tory legislators have expressed doubts whether they can continue to support Macmillan as party leader.

President Kennedy Asks Mayors To Help Reduce Racial Tension

HONOLULU (AP) — President John F. Kennedy's call for a program to reduce racial tension in cities was taken up today by several of the nation's most powerful mayors who pledged a battle to see it through.

New York Mayor Robert F. Wagner said of the president's message: "It is a real challenge. A lot of us will fight to see that our conference adopts a resolution supporting his position."

Backing up Wagner at the national mayor's conference where Mayor Richard J. Daley of Chicago, Mayor Jerome Cavanagh of Detroit and Mayor Joseph Barr of Pittsburgh.

Cavanagh, in fact, went farther in support of Kennedy's suggestions, terming civil rights "the most critical problem confronting the nation today. It is more critical than Cuba or Berlin."

Kennedy made a 30-minute speech to the assembled mayors yesterday afternoon, emphasizing that Negroes are certain to win equal rights and calling on the chief city executives to make the process a peaceful revolution.

The president's address capped a five-day, five-state Western tour that carried him from military inspections to political appearances and two talks on civil rights. He flew back to Washington last night.

Kennedy told the mayors in his address at a Waikiki Beach hotel the time is past "for token moves and talks." It is clear, he said, that Negroes eventually will have equal rights and, "our responsibility, yours and mine, is to see that they are won in a peaceful and constructive manner, and not won in the streets."

ASSEMBLY WORKING ON BROWN TAX BILL

SACRAMENTO (AP) — Administration forces tried to line up support today to squeeze Gov. Edmund G. Brown's withholding tax proposal through the Assembly on its first test.

"We'll make it," said Assemblyman Nicholas C. Petris (D-Oakland), who introduced the measure to collect state income taxes on a pay-as-you-earn basis.

But every sign pointed to a close decision on the most controversial feature of Brown's plan to keep the state out of the red.

Petris also expressed confidence that the lower house would approve the governor's bills to accelerate bank and corporation tax payments and exempt low-income Californians from paying income taxes.

GOP Caucus Chairman Don Mulford of Piedmont predicted the Republicans would stand firm in their pledge to oppose withholding. It was Petris' job to draw the needed 41 votes from the ranks of majority Democrats.

The Assembly, 52-28 Democratic, previously voted to speed up collection of insurance taxes. Brown's entire plan would yield a one-shot windfall of 139.3 million dollars in 1963-64 to help balance the 3.25-billion-dollar state budget without new or increased levies.

The prospective exemption of income taxes below $5 for a single person and $10 for families would cost the state an estimated 2.5-million dollars in revenue.

Petris described chances for Senate passage of the tax program as excellent, despite strong objections by some of its leaders to withholding, in particular.

At one time Haiti was the most productive of New World colonies, supplying Europe with all its sugar and France with half its revenue.

Pistol Team Ninth In U.S. Finals

Marin County Sheriff's pistol team, three times state champions, won ninth place in the national finals at Bloomington, Ind., Sheriff Louis P. Mountanos announced today. More than 200 teams competed.

The sheriff received word of the ninth place win in a telegram which arrived just before noon today. No other details were reported. The five team members, driving new cars donated by Ames Ford, are heading back to Marin and should be back about Wednesday.

Sheriff's Sgt. Edward Mythaler, who is on vacation, flew to Indiana to watch the national matches. His telegrams last week indicated that on the first day of the match, the Marin team got off to a slow start in the rain. On the second day, Capt. Sidney Stinson was reported shooting well, but not further word reached Marin until today.

Planners To Get Appeal On Station

Two appeals will be carried to the Corte Madera Planning Commission at 7:30 p.m. today in town hall.

W. J. McCormick of Kentfield will appeal rejection by the board of adjustments of plans for a duplex on substandard space at 231 Corte Madera Avenue.

The commission will review approval by the design board May 27 of plans for the Uplands, 342 apartments on the south side of Paradise Drive east of Marin Country Day School.

Sanitary Unit Seeks Director

Directors of the Las Gallinas Valley Sanitary District are searching for a replacement for Willis Hannawalt, who moved out of the district last month and was forced to resign from the board.

Board Secretary Mrs. Annie M. Reagan said anyone living in the district who is interested in serving on the board should write her at P.O. Box L, Civic Center. The letter should describe the person's qualifications.

Directors will schedule a meeting to interview applicants after they have received some applications.

"So far, we've received none," Mrs. Reagan said.

Sheriff's Patrol Car Smashed In Hunt For Thief

A new 1963 sheriff's patrol car cracked up on the Nicasio San Geronimo Road about 2:30 a.m. yesterday.

Sheriff's Sgt. Kenneth Irving said he was heading south, in answer to a report of a car stripper. He made a left turn onto the driveway of Dr. L. D. Howard's home, not realizing a car was right behind him.

The other car, driven by Mrs. Rose Marie McAuliffe, a waitress at Rancho Nicasio, crashed into the left side of the patrol car. No one was hurt.

Sergenat Irving said he did not use the directional signal before making the turn because if any thief was in the driveway, he did not want him to know he was making the turn.

Sub Teacher Is Due Exam

Two doctors were appointed today to determine whether Daniel Leo O'Brien, 53, of Kentfield is a sexual psychopath.

O'Brien, a substitute teacher for Tamalpais High School District, admitted molesting a 9-year-old girl at his home on April 17.

Judge Joseph G. Wilson, sitting in Marin Superior Court, named Dr. E. F. Galioni of the State Department of Mental Hygiene and Dr. Robert Burke of San Rafael to examine O'Brien.

The doctors are scheduled to report their findings on July 1.

Marinite Starting His Second Century

Joseph Achille Lymburner started his second century today.

Yesterday, the centenarian was given a birthday party at Center Medical Hospital in San Rafael, where he is a convalescent patient. His sons, Orville of San Rafael and Achilles of Larkspur, and daughter, Mrs. George Byrne of San Anselmo, gave the party.

Present also was his wife, Anna, who has more than a decade remaining of her first century. She also resides at the hospital.

Today, Lymburner and his wife observed his birthday in the usual pattern of their ways: Watching television, listening to the radio, and being read to by volunteers at the hospital.

Besides the usual birthday cake, the observance yesterday included a scroll from Archbishop Joseph T. McGucken of the Catholic Archdiocese of San Francisco, commending Lymburner on his long devotion to the Roman Catholic faith.

Lymburner was born in Montreal, Quebec, on June 10, 1863, a year before the confederation of Canada. He was the fifth son of a French-Canadian silver plater, and had four sisters also. He is the last surviving member of the family.

In his youth, he worked as a lamp lighter in Montreal, then apprenticed to a pharmacist. He met Anna Oxford, a native of Lafayette, Ind., after he came to the United States and went to work as a pharmacist in Chicago. They married in 1898.

For many years, Lymburner worked in San Francisco for Coffin-Redington Co., wholesale drug supply firm.

Besides the two sons and daughter, the Lymburners have 10 grandchildren and 16 great-grandchildren.

Miss Schwan's roommate, Carol Linda McMaster, was killed when the car driven by Lufty smashed into a concrete abutment on the bay side of Alexander Avenue at 2:25 a.m.

New Trial Due William Acree

William Arthur Acree, 20, whose car killed a Kentfield youth last New Year's Eve, will get a new jury trial in October.

Judge Joseph G. Wilson today set the trial for eight days, beginning Oct. 1.

Acree's car hit two pedestrians near Marin City, killing Robert T. McMullen, 19, of Kentfield and severely injuring William R. Costello Jr., 19, of Larkspur.

A jury found Acree guilty of misdemeanor manslaughter last month, but defense attorney William O. Weissich succeeded in convicing Judge Wilson that Acree should have a new trial.

$7,500.00?

Pretty smart if you were smart enough to start buying your home instead of renting. Why? Well, as a home buyer you're eligible to borrow $7,500 through Pacific Plan. And you're very smart if you realize that the new low rates of $74.25 per month for a $7,500 loan are pretty low interest only rates for homeowners. And you're really cum laude if you know how much less you pay each month if you borrow from $1,000 to $10,000 through Pacific Plan and repay only $29.92 per $1,000 per month with the fully amortized loan. And take a short term 37 or 55 months to pay — because you're a smart homeowner. If you need a loan, perhaps the smartest thing you've ever done will be to call Pacific Plan. Pacific Plan — a California loan brokerage firm — in your Yellow Pages, of course.

Answers From Marin Women Emerging

Would Marin County be a safe place under nuclear attack?

"As safe as any," thinks a San Rafael housewife, "but not safe."

Some other women of the county feel that Marin proximity to tempting targets makes it safety below average.

Where the majority stands on this and other points of similar nature should begin to emerge soon, when tabulation of a recent random survey of feminine Marin residents is completed.

Meanwhile, according to Mrs. Lola Hanzel of Kentfield who was co-ordinator of the survey job from its start May 10, it's already most apparent that Marin County women take active interest in the subject of peace; that they are relatively well informed; and that for the most part they welcomed interrogation.

"Many said they appreciated our questions," said Mrs. Hanzel. "They were glad to be caused to think."

It is hoped that as many as 400 responses to interviewers can be assembled for tabulation, Mrs. Hanzel said. She reported between 200 and 250 were turned in at an initial meeting Wednesday following the end of the survey but others were still being made ready for check.

All the interviewers reported "a few rebuffs," she said, but actual antagonism was rare. If it appeared the caller had arrived at a busy moment she would ask if they might return later. Permission to come back was taken as proof of a willing attitude.

The Independent-Journal proved to be an unexpected help. Interviewers found that in some neighborhoods where active sales solicitations have been carried on, housewives were suspicious that the poll was just a sales gimmick.

Resistance of this sort promptly disappeared if the interviewer could show an I-J clipping to support her statement that only opinions were sought.

Though active hostility was rare, a number of those interviewed said something on the order of "you won't like my answers"—but this was completely wrong, said Mrs. Hanzel. The interviewers weren't pressing any given point of view and wanted answers of any kind that showed thought and interest.

"Mostly the 'you won't like it' people gave answers that were fine from our point of view," declared Mrs. Hanzel. She said the interviewers all had an enthusiastic view that they had been through "a positive experience."

However, some apathy was found on the part of women inclined for the most part to feel they didn't need to worry—the scientists and the government would take care of everything. Others were concerned over nuclear peril but not certain what could be done to lessen the menace.

Among responses were such remarks as "the United Nations isn't doing too well, not enough to be worth what it costs us."

Against this was a view that the United Nations was trying, and doing "a pretty good job." This interviewee felt that the greatest obstacle to world peace was greed for money.

One woman complained that her small children had developed such overall fear that they weren't being allowed to watch television any more. Asked how she felt small children might be reassured, she expressed doubt that much could be done though reasoned explanations could be employed at higher age levels.

"Total honesty is the only answer," said one woman in discussing the problem of coping with juvenile uncertainties. But many felt it was not easy to give factual answers, especially about fall-out.

"The children will have to get used to be afraid the same as the rest of us," said one housewife.

Blind Girl To Graduate From Redwood High

By LOTUS SCHAFFER
Redwood High School

Esther Salata, the only blind student ever to attend Redwood High School, will graduate Thursday with the class of 1963 after four years of studying at a public school.

She is the daughter of Mr. and Mrs. George Salata of Corte Madera.

"I have gained experience, knowledge, and learned to negotiate with people while I attended Redwood," Miss Salata commented.

She will attend College of Marin and hopes to major in science. "I am looking forward to having the opportunity of expanding my environment in college," she added.

Miss Salata is also taking a course in "travel-training" sponsored by the Lighthouse for the Blind. It consists of instruction with a cane, to teach the blind person more independence of movement. The ultimate goal of this training is to familiarize Miss Salata with the College of Marin campus, so she may maneuver easily to her classes without assistance.

While attending Redwood, the blind girl became so familiar with the school that she was able to go from class to class through the crowded halls with no help at all.

Before coming to Redwood, she went to the California School for the Blind in Berkeley from kindergarten through the eighth grade. "I was very glad to come to Redwood," she said. "It gave me a chance to get used to the public and in turn let them get used to me."

During her four years in high school Miss Salata has participated in the production of two school plays, taken an active part in the choir, and has made it a habit to go to all the school football games.

"I feel that students at Redwood are no longer aware of Esther's handicaps; on the contrary I believe they are astonished at her accomplishments," commented Freeman D. Blake, her history instructor.

Many of Miss Salata's teachers feel that she is a test to their clarity, and indicate that they have gained much through the experience of having her in class.

She can take notes in class by use of a "braille-writer," and in addition to this, she types proficiently.

Miss Salata has two brothers, Buzz and Dan, who also attend Redwood.

HE VOWED SMASHUP THEN RAMMED POLE

A jilted youth suffered severe head injuries when he tried to use his automobile as a suicide weapon by ramming a utility pole on Highway 101 near the Greenbrae overpass as his sweetheart watched from a following car Saturday night.

Raymond John Wilson, 19, a San Francisco machinist apprentice, was in good condition today but undergoing psychiatric observation at Ross General Hospital following melodramatic episodes Saturday.

Stories told to California Highway Patrolman G. L. Walkup by Wilson, his ex-fiancee Jane Soto, 17, of Daly City, and Martin Zachreson, 19, also of Daly City, coincided in essential respects to give a macabre story of Wilson's effort to kill himself within Miss Soto's sight.

It started with a Saturday afternoon picnic of a group of young folk, mostly high school students, at the Marin Town and Country Club in Fairfax.

Sometime during the afternoon Wilson and Miss Soto quarreled. Miss Soto told Wilson she was breaking their engagement. She said he pulled his engagement ring off her finger in the course of a lengthy argument, after which she refused to return with him in his car "because he drives fast and crazy when he is angry."

"If you don't go with me, there'll be a mess on the highway," declared Wilson as Miss Soto arranged to accompany Zachreson, his girl friend and four other girls.

When she tried to remove her coat and some other effects from Wilson's car, he refused to let her do so because, he said, according to Miss Soto, he wanted her to see her property in the car "after the accident." Zachreson said Wilson declared, "You wait and see, you're going to pick me up on a slab."

"You'll be sorry when you see the mess all over the highway," Wilson called as the Zachreson car started for San Francisco. He jumped into his car and followed.

Eastbound on Sir Francis Drake Boulevard, Wilson's car passed the other as it neared the Greenbrae intersection about 8:55 p.m. and Wilson yelled, "Goodbye!" at the Zachreson vehicle.

As the Zachreson car entered Highway 101 its occupants saw Wilson's car swerve right and drive head-on against a light standard. Through a cloud of dust Wilson could be seen stumbling out of his car and collapsing unconscious beside it.

After being rushed to Marin General Hospital where he received emergency treatment, Wilson told Zachreson several times that he wanted to die. He told Patrolman Walkup he didn't want to live without Miss Soto.

New job in southland

Ex-Marinite Boosted By Utility Firm

Paul W. Cane, former Larkspur city councilman now living in Los Angeles, has been named manager of public relations for Southern California Gas Co.

Vice president Frank C. Sullivan said that the move has been made as part of a general realignment of the gas company's public relations department.

Cane, who joined the company in 1959, has been working as manager of community relations. Two assistants are being provided, one as public information manager and the other as administrative assistant.

At the time he lived in Marin County Cane was with the Santa Fe Railroad's public relations office in San Francisco, after being employed by the San Francisco News and United Press.

Mount Tam Subdivision Plan Before Supervisors Again

Preservation of 15 acres, threatened with subdivision, on Mount Tamalpais will again be put before the Marin County Board of Supervisors tomorrow.

The board had referred proposals for purchase of the Scott property ot the State Division of Beaches and Parks, alleging it was up to the state to buy the land as an addition to Mount Tamalpais State Park.

County Counsel E. Warren McGuire, however, has learned the state has no funds available and "is not in a position to proceed further." He will ask the board whether any negotiations should be pursued by the county or should he assume the matter is "useless."

Senior county planner A'leen Runkle said she has new information on possible state interests and will present the board with some propositions.

Several conservation groups, including the Nature Conservancy, have expressed interest in saving the land.

The board will meet at 9 a.m. in the Civic Center. Several continued matters to be considered will include appointment of committees on the aged, mental health and the citizens' advisory committee on Marin County development.

Hearings on the proposed 1963-64 budget will begin Wednesday with discussion of county schools office budgets, assessor's and county counsel budgets.

The hearings will continue every day except Monday and Tuesday until June 21.

Texan Drives Wrong Way; Daughter, 10, Injured

A Texas tourist turned wrong in driving from Vista Point near the Golden Gate Bridge just before 9 p.m. Saturday. Heading south in the northbound traffic lane of Highway 101, he was promptly involved in an automobile collision injuring his 10-year-old daughter.

Robin Spangler suffered head injuries which caused her to be held for observation overnight at Marin General Hospital.

Her father, William Ray Spangler of Lake Jackson, Tex., an electrician, had driven north off the bridge and turned off to the parking space so that he, his wife and their little girl in the rear seat could admire the view of the bay and San Francisco.

When they returned to the highway Spangler failed to note a "Do Not Enter" sign and drove into the northbound lane, then attempted to turn around.

Spangler's station wagon and a sedan driven by Wilton H. Clymer of 2 Sidney Street, Mill Valley, collided semi-broadside. Only victim was the child.

Paper money was first used in the United States in 1690 in Massachusetts Bay Colony, but it was not until 1861 that Congress authoribed the issuance of a national paper currency.

Fire Damage Set At $7,500 To San Rafael Sewing Room

A sewing room was gutted in the home of Mr. and Mrs. Robert Russell, 515 Fifth Avenue, San Rafael, Saturday in a $7,500 blaze which also blistered paint and cracked a window of the house next door.

San Rafael firemen said evidence in the burned-out room pointed to a wall socket in the sewing room, where an iron had been plugged in, as the origin of the fire. But Russell's wife, Lorene said she first found the flames in a clothes closet.

She said she was drinking coffee with a friend in the living room when she smelled smoke.

Damage was estimated by firemen at $6,000 to the house and $1,500 to the contents. There was extensive damage to furniture from heat, smoke and water throughout the house. Eleven men and two trucks responded to the call.

Court Calendars Apportionment, Sit-ins

WASHINGTON (UPI) — The Supreme Court decided today to give further consideration next term to two key areas of legal controversy—the apportionment of state legislatures and "sit-in" demonstrations.

It agreed to hear arguments and then hand down rulings on a series of cases involving both issues sometime next fall or winter. The court is expected to end its present session in a week or so.

Accepted for consideration next fall were reapportionment cases from New York, Maryland, Virginia and Alabama in which city voters charged that had inadequate representation in state legislatures on a population basis.

All of the cases arose after the court ruled last year in a landmark case involving Tennessee that federal courts had the right to consider voter claims of unfair apportionment.

The court today similarly agreed to review next term sit-in cases from Columbia, S. C., Baltimore, Md., and Miami, Fla. These cases, along with an amusement park case from Maryland, May determine whether a private businessman may deny service to a customer on racial grounds.

Last month, the court ruled that sit-in demonstrators cannot be prosecuted under local ordinances or official edicts requiring segregated facilities. But that decision did not touch on the issue of whether a private owner could have demonstrators arrested in the absence of such laws.

The court also sent back for reconsideration by lower courts sit-in convictions from Richmond, Hopewell and Arlington County, Va.

In other actions, the court:

"Unanimously struck down a Missouri law which allowed emergency state seizure of public utilities to block a strike. Justice Potter Stewart said the Missouri law was a "fiction" that "made a peaceful strike against a public utility unlawful in difect conflict with federal legislation which guarantees the right to strike against a public utility."

Declared that searches and seizures by state and local authorities must meet the standards of "reasonableness" that govern federal law enforcement procedures. Justice John M. Harlan dissented from the finding. He said it was "uncalled for and unwise."

Declined for a second time to examine a decision that the all-white Chicago suburb of Deerfield, Ill., could condemn land for park purposes a tract that a builder had planned for integrated housing.

Shopping Center On Novato Planners' Agenda

Architectural supervision for a shopping center at Wilson Avenue and Novato Boulevard is being asked by John Novak, Inc., of the Novato planning commission at its meeting at 8 p.m. today in the community house.

Novak plans 73,482 square feet of buildings on 7.83 acres, including a market of more than 20,000 square feet, a department store of 9,000 square feet, a drug store of 12,000 square feet, and 37 shops in more than 31,000 square feet.

Wells Fargo Bank will submit a tentative map of Woodland Heights of 76 lots on 30 acres adjacent to Forest Park Unit 3. Approval for the tentative map of Jade Gardens of six lots on two acres on Vallejo Avenue near Clayton Court is being asked by McGillicuddy, Inc. Stone Castle Development Co. is submitting a tentative map of Vineyard Terrace Unit 2 of eight lots on two acres between Center Road and Vineyard Road.

L. J. Peterson proposes to divide three acres into three one-acre lots at 752 McClay Road. Dr. Ralph J. Weseman is asking architectural supervision for a 1,445 square foot addition to the Twinbrook Medcal Center at 1324 Grant Avenue.

Gus Ravetz seeks a zone change for 10 acres at Railroad Avenue between Olive Avenue and Cherry and Peach streets, from mobile home to multiple family.

Things Are Happening In Music At College

By MAYBELLE SPECKMANN

Saturday night's spring concert of the College of Marin Community Orchestra in Olney Hall confirmed a recent impression that important things are happening in the music department.

Improvement in this group of some 45 musicians under direction of John H. Myers was marked. For an ensemble that practices only once a week, a fine esprit de corps has been developed.

Myers conducted the concert with more verve and more finesse than anything we have heard him do.

When the whole orchestra was playing—as is frequently the case with amateur ensembles—the musicians were for the most part more successful in the flambuoyant works such as "A Life For The Czar" overture by Glinka and the "Razkoczy March" based on a Hungarian melody. Inhibitions and uncertainties that might result in a timid approach to more complex and subtle compositions tend to vanish in these lively numbers.

However, the orchestra produced a very enjoyable reading of Schubert's Symphony No. 8 in B Minor, "Unfinished."

Some of the seven dances from the ballet "Don Juan" by Gluck were played with more danceable rhythm than others.

Inevitably with a group of this kind there were some problems with intonation and attack, but they were more than made up for by the fact that each choir achieved a high level of musical accomplishment in certain works or passages.

For the strings it was in Mozart's serenade, "Eine Kleine Nachtmusik." For the wood winds and brasses it was in the Schubert Symphony. And the Tympani and other percussion instruments had their moments too.

An appreciative audience nearly filled Olney Hall.

Vatican Decides Against Using Light Signal On Vote

VATICAN CITY (AP) — The Vatican has decided against a light signal to flash word from the Sistine Chapel on the election of a new Pope, a Vatican radio official said today.

Vatican radio sources said last week that the official radio station was studying the possibility of installing an electrical system between the chapel and the Vatican radio studio. Someone inside the chapel would throw a switch and a system of lights would indicate whether a Pope had been elected or whether there was no agreement.

But the system apparently falls under a conclave rule which bans "telegraphic, telephonic, microphonic, radiophonic, photographic, cinematographic and other similar instruments."

Thus the traditional smoke system will still be used. Vatican radio also will rely on the smoke.

At the conclave, opening June 19, ballots will be burned after every voting session. A substance to produce black smoke to show no Pope has been elected or white smoke to show one has been chosen.

But it is not always easy to tell what color the smoke is.

GOP Group To Find Jobs For Negroes

SAN FRANCISCO (AP)—Delegates to the California Republican Assembly voted yesterday to create a committee to act as an employment agency for Negroes throughout the state.

The organization, to be called the Republican Committee for Equal Economic Opportunity will first create a file containing the names and qualifications of Negroes who want to work.

With file in hand prominent Republicans will canvass potential employers "who, through conviction and moral integrity, are willing to hire minority races," according to the resolution which won approval despite objections from the resolutions committee.

CRA Resolutions Committeeman John Phillips fought the Negro-backed measure saying he opposed "the Republican Party establishing a procuring agency for employees among minority groups.

But three Negro supporters of the committee idea, led by James L. Flournoy of Los Angeles, took their fight to the floor and won by a vote of the delegates.

Cattle Theft Is Reported At Inverness

Sheriff's deputies are looking for cattle rustlers who stole 19 head of cattle, worth more than $5,000, from the RCA Ranch four miles west of Inverness.

Joseph A. Lunny, who leases the 1,475-acre ranch for his dairy herd, reported his loss to Deputy Sheriff William S. Christensen of Point Reyes Station.

Lunny said the theft occurred sometime between May and December of last year. He has been looking for his cattle for five months without success. He finally notified the sheriff.

The missing herd consists of heifers and springers, two to three years old. There were 15 Holsteins, two Jerseys, a Guernsey and a brown Swiss.

All the animals bore the brand "L-B" on the right hip.

Belvedere Meeting Is Canceled

The Belvedere city council has canceled an adjourned meeting which was scheduled for tonight.

Councilman Sally Mathews said the council decided not to meet in the interests of harmony between Belvedere and Tiburon.

"In accordance with our previous discussion, we do not want to take any action which would jeopardize the chances of Tiburon incorporating," she said. "We have been assured by the Tiburon incorporation committee it will wait to file a map until the matter has been thoroughly studied by the Belvedere Planning Commission and its recommendation made to the council.

"We feel the additional time is necessary for Fred G. Zelinsky to legalize the parking plan which would be of a mutual benefit to both communities."

Passenger Hurt As Autos Collide

A San Francisco youth was injured when a car in which he was a passenger hit a car ahead in heavy traffic on Highway 101 north of the Blackpoint cutoff about 5:10 p.m. yesterday.

The southbound car of Constantin A. Litvinence, 17, San Francisco car painter, hit that of Robert W. Cruden, 27, of Berkeley, University of California graduate student, reported California highway patrolman Keith Craig. Yurty Patrakof, riding with Litvinence, hit his head on the windshield but refused hospitalization.

2 Intoxicated Drivers Fined

Two drunken drivers were fined Friday by Judge Harold J. Haley in Marin Municipal Court.

The firm had been charged with failure to operate the premises as a bona fide public eating place.

Hoffa Pleads Innocent To Tampering With Jury

NASHVILLE, Tenn (UPI) — Teamsters Union President James R. Hoffa and 10 other persons pleaded innocent today to federal charges of jury tampering.

Three of the defendants, however, "stood mute" although pleas of innocent were entered for them. Their stand means they would not admit the allegations in the indictment were technically correct.

All were indicted by a federal grand jury here last month on charges of trying to bribe or "corruptly influence" jurors and prospective jurors at Hoffa's one-million-dollar conspiracy trial here last winter. The case ended in a mistrial when the jury could not agree on a verdict.

Attorney Jacques Shiffer of New York, representing defendant Thomas Ewing Parks of Nashville, said Parks was standing mute because government attorneys and investigators "threatened and cajoled" witnesses before the grand jury.

Hoffa, who flew here in his private plane, sat quietly in the spectators' section of the courtroom with Ewing King, president of Teamsters Local 327 of Nashville and one of the defendants. With them was Harold Gibbons, Teamsters International vice president.

Barefoot Youth Jailed As Suspect In Mill Valley Station Break-In

An 18-year-old barefooted laborer was arrested by Mill Valley police early Saturday after an attempt to break into Ted's Richfield station at 35 Corte Madera Avenue.

Ladd Taylor Johnson, 18, of 299 Cascade Avenue, was chased shoeless up about 92 steps to 75 Corte Madera Avenue and captured by Sgt. Lee Sellers while hiding in some bushes, Sellers said.

Johnson was placed in county jail, charged with drunkenness and suspicion of malicious mischief.

Sellers was in the police station, about one-half block from the service station, at 12:25 a.m. when he heard the sound of breaking glass. Running outside, he saw a man running up Corte Madera Avenue away from the service station. Sellers chased him.

When he caught Johnson, Sellers found him to be barefoot. Johnson said he did not remember if he threw a rock at the window or swung his arm at the window with a rock in his hand. A large piece of cement was found inside the station. The latch of the door had a metal tube protruding from it, presumably to gain entry.

In two break-ins over the weekend, four white sidewall tubeless tires, valued at $212, were reported stolen from Harry's Union Service at 455 Miller Avenue and $10 in cash from the Locust Variety Store, 7 Locust Avenue.

Harry J. Groth reported to police that sometime between 10 p.m. Friday and 8 a.m. Saturday, someone broke a 53-by-24-inch window in the back of the lubrication room, entered and took two tires.

Someone broke a small window in the rear of the variety store between 6 p.m. Saturday and 5:55 a.m. Sunday, it was also reported. A latch was released, a garbage can overturned and $10 in change and bills taken from the store.

Only Minor Injuries, But Car Really A Wreck

A car ran off Point San Pedro Road last night, snapped off an electric power pole, catapulted 126 feet, hit another car, and overturned — and its two occupants escaped with minor injuries.

Louis M. Molles Jr., of 111 Glen Oak Avenue, San Rafael, was at the wheel of the westbound auto, reported the California Highway Patrol. Riding with him was Stanley T. Azevedo of 1218 Second Street, San Rafael.

Molles was thrown out as the car, which was smashed from double impact with pole and second vehicle, rolled to pieces on the road. He was treated at San Rafael General Hospital for multiple cuts on head and arm. Azevedo suffered minor cuts but refused treatment.

Mrs. Gerson Jacobs of 873 Idylberry Road, Lucas Valley, driver of the second car, was uninjured.

Molles' car skidded on a curve about 6:40 p.m. Skid marks showed his car was on the wrong side of the highway for about 200 feet east of McNear's brickyard entrance at San Pedro Point, according to highway patrol investigators. They measured a 90-foot skid to the road shoulder, then another 100 feet of broadsiding through gravel and dirt until the pole was struck.

The car glanced off the pole into the road again, to strike Dr. Jacobs' eastbound sedan.

Seashore Superintendent Arrives At Point Reyes

Fred W. Bennewies, a veteran of 27 years with the national parks, arrived at headquarters of the Point Reyes National Seashore on the Bear Valley Ranch today to start duties as first superintendent of the seashore.

He has been assistant superintendent of Glacier National Park in Montana since 1960 and will return to his home at West Glacier in mid-week to arrange for removal of his wife and daughter, a high school sophomore, to arrive in Marin County about July 1.

"We are all most happy about this," said Bennewies. "My only experience in California previously was in a very different setting in the south, as superintendent in Death Valley for the six years from 1954 to 1960."

Though the appointment was announced in Washington, D.C., Saturday, no notification had been received today by the regional office in San Francisco.

Project manager James E. Cole has been reassigned to a special park service study in the State of Washington and must leave Friday for Seattle. Cole expects to return to California sometime next September or October but he will then work once more as a research biologist in the park service's San Francisco office, he said.

Land acquisition employing five million dollar appropriation recently provided by the federal government will be handled by Bennewies as soon as he settles into his new job. Meanwhile Cole's assistant, Gordon Paterson, will carry on.

Bennewies at one time taught school in Estes Park, Colo. He started with the park service in 1931 as a seasonal ranger in Rocky Mountain National Park, and in 1936 received a permanent appointment as ranger at Mammoth Cave, Ky. In 1947 he became superintendent of Bandelier National Monument, 45 miles from Santa Fe, N.M. The Death Valley job followed seven years later, after which he went to Glacier Park.

Bennewies has two sons now in the park service, one in Yellowstone Park and the other at Shadow Mountain, Colo.

Sanitary Unit Seeks Land Lease

Sausalito-Marin City Sanitary District directors decided at a special meeting Saturday to ask the Army Corps of Engineers for a 50-year lease on four and one-half acres of land adjacent to the present treatment plant at the southern end of Sausalito.

The land would be in exchange of a lower sewer charge for the Army, according to Stanley Cowen, director.

Also requested is that, if land is acquired, the lease on present property be made to read for 50 years, too. Originally, it was 50 but 10 years have passed since acquisition.

Assessor, Auditor Answer 'Ten Problems Of Marin'

Per capita cost of county government hasn't risen faster than the cost of living index for Marin County.

This statement is backed by two top county officials: Assessor Bert W. Broemmel and Auditor-Controller Michael Mitchell.

Independent-Journal publication May 30 of a letter from Stuart F. Floyd of Novato posing 10 problems on Marin County governmental affairs caused Broemmel and Mitchell to collaborate on a reply which scored four of Floyd's statements true (one "partly true") five more or less in error, and one requiring clarification.

Floyd had said he considered all 10 true. "Allegation No. 6" about per capita costs laid down that the cost per person of county government has increased faster than the living index has risen, to which Broemmel and Mitchell replied:

"False. While the cost of living index has consistently been on an upward trend, the budget per capita (considering the county budget only, excluding other jurisdictions), has fluctuated as follows: 1959—$84.45; 1960—$80.04; 1961—$78.02, and 1962—$84.34."

Scored as true were the first, second and fifth allegations, that the tax collector collects taxes but doesn't assess; that property is assessed by assessors who don't establish tax rates, and that no Marin County budget has ever been less than the previous year's. ("Unavoidable," was the answer, due to rapid growth and demand for more services.)

Floyd's statement that increased revenue from recent reappraisals won't cause the county to operate better or furnish additional service was termed "partly true," though more money might be spent on more services.

That county department heads don't consider income in setting their budgets was denied and the decisive role of the supervisors was stressed.

Nor, said the reply, does every county use up its budgeted allowances each year. For the current year it was estimated that outlay will be $13,880,365, for example, as compared with a budgeted $14,217,422.

"Erroneous" was the description applied to an allegation on assessment, with an explanation that not all properties change in value in the same direction or degree and that the assessor's job is to maintain fair distribution of the tax burden.

As to a charge that upward reappraisals will not cause a lower tax rate, the reply was "not necessarily so," with a note that from 1958 through 1962 the rate for county government dropped from $2.30 to a low of $2.05, ending at $2.07.

Clarification was called for, said the response, in regard to whether taxing of open land on the basis of future subdivision activity had become an accepted practice. This brought a Supreme Court definition of the assessor's duty in finding fair market value, which represents—

"... the highest price a property will bring if exposed for sale in the open market, allowing a reasonable time to find a purchaser who buys with knowledge of all the uses to which it is adapted and for which it is capable of being used."

The letter said that open land now devoted to agriculture, where there has been no recognition of readiness for subdivision, is valued on a basis of agriculture as the highest and best use. But land on the urban perimeter "currently commanding prices in the market place indicative of a higher land use must be valued at higher levels."

The nub, says the reply, is that the assessor has to value on a basis of what the property is worth on the open market regardless of present use — "this has been the law for decades."

IT'S CHRISTMAS AT REDWOOD NATIONAL BANK

You would think so, anyway, from all the mail we've been getting lately. With money in it. But (unhappily) we can't go running about spreading the money o'er Marin's green hills. It's not ours. It's yours. At least if you're now banking-by-mail with us. Hundreds of people (even from far-off San Mateo) have learned that banking-by-mail with Redwood makes sense (cents). First of all, we pay all the postage. Both ways. Secondly, you get the chance to use our charge-free checking arrangement. (If you maintain a $200.00 balance, then there are never any charges on personal checking accounts at Redwood National Bank.) It's another way we spell service at Redwood. As we see it, service is the business we're in. And judging from the mail, a lot of other people see it our way too. For us, it's just like Christmas. Every day.

Giants Jump Out Of Frying Pan Into Fire Tonight

LOS ANGELES (UPI)—It's out of the frying pan and into the fire tonight for the powder-puff hitting San Francisco Giants of the National League.

They arrived here today to take on their arch-rival, the Los Angeles Dodgers, in a two-game series. No smiles graced the faces of the glum Giants who are trying to pull out of their worst tailspin since moving from New York's Polo Grounds to San Francisco in 1958.

Houston stretched the Giants' losing streak to seven in a row last night with a 3-0 whitewash. The feeble-hitting defending N.L. champions have scored only two runs in their last three games. The Giants dropped four in a row to Chicago and three straight to Houston.

Manager Alvin Dark has nominated lefthander Billy Pierce to start tonight against righthander Bob Miller of the Dodgers who lead the N.L. San Francisco is two games behind Los Angeles

This marks the Giants' first appearance at Chavez Ravine since they lost three in a row, including Sandy Koufax's no-hitter, there in mid-May.

Hal (Skinny) Brown turned in a spectacular relief performance for Houston to pick up his first win of the season. He relieved starter Dick Farrell with two out in the third when Farrell pulled a back muscle.

GAME ON TELEVISION

KTVU, Channel 2, will televise tonight's game starting at 7:30 p.m. with a pre-game show.

Brown allowed only one hit in 6⅓ innings and retired the last 17 batters he faced. A lead-off single by Willie Mays in the fourth was the only hit off Brown. Mays was later caught stealing.

Chuck Hiller, Willie McCovey and Orlando Cepeda collected the three other San Francisco hits, all singles off Farrell.

It was the first night game played on a Sunday in major league history. Houston has received permission to play at night on Sundays to avoid the extreme heat of an afternoon in Texas. During the day yesterday the temperature was 95 but it dropped to 79 at game-time.

Houston tallied single runs in the first, sixth and eighth innings. Carl Warwick singled home Al Spangler in the first. A single by John Bateman scored Warwick in the sixth and Howie Goss doubled home Rusty Staub in the eighth.

Jack Sanford (7-5) was the loser. He gave up six hits and two of the Colt runs before leaving for a pinchhitter in the eighth. Jim Duffalo pitched the eighth for San Francisco, allowing Houston its third run.

Brown, a former American League pitcher, has now hurled 28 innings in the National League without walking a batter. He struck out six Giants in his relief stint last night.

Furious Connolly Flies To L.A. To Read Riot Act To The Giants

O.K., all you Giants fans, stop worrying.

The club's seven-game losing streak will come to an end tonight. The defending champs will start hitting, fielding and thinking to their capabilities again, launch a winning streak and go on to win the N.C. crown for the second straight year.

How de we know all this? Gladja asked.

We merely dispatched Bullpen columnist John J. Connolly to Chavez Ravine to take care of the situation.

Jawn Jay was so mad after last night's seventh straight loss that he was shaking all over. And that's a lot of shaking. So rather than sit at home and suffer, he grabbed the first flight to Los Angeles to personally scold the skidding Giants. "I'm going to give them a piece of my mind," he screamed as he headed for the airport. "At the start of the season I had them going good but as soon as they got on the road this trip they went to pieces. As soon as they got out of my sight they started acting like school kids. When the cat's away the mice will play, eh? Well this tiger's going to L.A. and we'll see if those Giants are mice or men. So don't worry, I'll bring them home in good shape."

The Ol' Bullpenner was armed with his Giant rooter's cap, a bat, glove and his acid-spewing typewriter.

He'll report from the scene in tomorrow's I-J I only hope the Giants win. This is a family newspaper.

Some pretty fair golfers are entered in next weekend's annual Gold Putter-Silver Spoon Invitational Tournament at the Meadow Club, including Harvie Ward, two-time national champion, Bud Shank of Diablo, perennial threat in Northern California tournaments, and George Archer, Trans-Mississippi champion.

Ward is teamed with Dante Tognoli, Shank with Dr. Doug Ramsey and Archer with Homer Beattie.

Back to defend his low net title will be ex-Yankee pitcher Art Shallock, teamed this year with George Kerrigan. Last year Shallock and Bob Seeba led the field, but business will keep Seeba out of action this year.

Another ex-Yankee, Joe DeMaestri, will team up with auto tycoon Don Collins.

IRISH BOBBY Scanlon, the ex-Marinite with ambitions of fistic glory, takes on state lightweight champ Paulie Armstead in Sacramento tomorrow night. Some feel Scanlon is no match for Armstead, but the little Irishman barely lost to San Jose's rugged Luis Molina recently and could finally score a big upset Tuesday.

SAN RAFAEL High grad Alan Finley has received his numeral in baseball at Monmouth College in Monmouth, Ill., where he's a freshman. Alan is the son of Dr. and Mrs. Malcolm N. Finley of 280 Margarita Drive, San Rafael.

FORMER KTIM sports director Ted Mitchell, an English teacher and counselor at Tam High, will attend Colorado State University this summer under a National Defense Education Act Grant.

ELDON BENNETT, Redwood High swim coach and math teacher, will quit teaching and embark on a career in business as soon as school's out.

Julius Boros Is Threat For National Open

GRAND BLANC, Mich. (AP)—Big, muscular Julius Boros loomed as a clear threat for the National Open Golf championship today in the wake of his record-smashing triumph in the $52,000 Buick Open.

The solid man from North Carolina breezed around the 7,280-yard Warwick Hills "monster" course in two more sub-par showings yesterday for a 14-under-par total of 274, five strokes ahead of the field.

Boros' performance, in which he led from the start of play Friday after Thursday's rain-out, broke the Buick Open record by eight strokes. All his four rounds were sub-par.

With his 66-71-68-69 string, Boros led runner-up Dow Finsterwald by five strokes. Dow shot a 279. George Bayer was third with 280.

Golfer Defeats Brother In M.V.

Fred Brown defeated his brother, Earl, in the championship flight of the finals of the Mill Valley Men's Golf Club tournament yesterday.

The championship flight was 36 holes and the other four flights were 18 holes. Fred defeated his brother 5 and 4. In the President's flight it was appropriate that Keeler Nash club president, defeated Frank Lyman, 3 and 2.

Trophies will be awarded to winners and runners-up Saturday night after a tournament with both the women's and men's divisions of the club.

Director's flight — Syl Auteri def. Lloyd Schultzman, 1 up.
First flight—Frank George def. Dr. S. V. Christierson, 2 and 1.
Second flight—Bill Coady def. Bill Brown, 2 and 1.

Marin's Boccabella Signs With Cubs; $25,000 Bonus

Independent-Journal Sports

10 Monday, June 10, 1963

John Boccabella, slugging first baseman for Santa Clara University, left his San Anselmo home today for Idaho after signing a contract with the Chicago Cubs for a "sizable bonus."

Boccabella, a son of Mr. and Mrs. Doimnic J. Boccabella of 317 Greenfield Avenue, San Anselmo, signed with the Cubs after being a much sought-after star at San Clara. His bonus was thought to be around $25,000.

Boccabella played his high school baseball at Marin Catholic from where he was graduated in 1959. Besides baseball, he was an outstanding football player and made All-Marin Athletic League in both sports.

He will report to Pocatello, Idaho, in the Pioneer League which is Class A baseball. He left by plane today at 11 a.m.

The right-handed thrower and hitter was named on the second team of the 1962 All-American college baseball squad after helping the Santa Clara Broncos reach the finals of the NCAA baseball tourney in that season.

The 21-year-old Boccabella, who stands 6-1 and weighs 195 pounds, had his worst season with the Broncos this year when he finished the campaign batting only .208. He was signed by Cub Bay Area scout Ray Perry.

Boccabella played for the United States All-Stars against a New York team in the annual Hearst Sandlot Classic back in 1958.

His signing marked the third bonus given to members of the 1962 Santa Clara team. Teammates Bob Garibaldi, a pitcher, signed with the San Francisco Giants and shortstop Ernie Fazio signed with the Houston Colt 45's.

Where There's Wills There's A Way And The Dodgers Are On Their Way

By ASSOCIATED PRESS

The Los Angeles Dodgers prepared today for another showdown with San Francisco after concluding a road trip with a five-game winning streak, a slim hold on the National League lead and a theory that where there's a Wills there's a way.

The Wills leading the way is Maury, the little speedster who has turned slugger since recovering from an injury and led Los Angeles to five straight victories — the latest an 11-8 conquest of the Chicago Cubs yesterday.

Wills missed the first part of the road trip due to a calcium deposit on a toe of his left foot, and the Dodgers proceeded to lose seven of ten games while falling four lengths off the pace. Then Wills rejoined the club. They haven't lost since.

Wills followed up a four-hit performance Saturday with a 3-for-5 effort against the Cubs yesterday, driving in three key runs with a bases-loaded double in the sixth inning. That gave Wills 11 hits in 22 at-bats, a torrid .500 pace, since returning.

The spurt has raised Wills' average from .252 to .292 and revitalized a slumping Los Angeles attack just in time for the start of a 2-game series tonight against third-place San Francisco.

The Giants are two games behind following their seventh straight loss, 3-0 at Houston as reliever Hal "Skinny" Brown pitched one-hit ball for the Colts over the final 6⅓ innings in the first Sunday night game in major league history.

Second-place St. Louis, one-half game back, set the doubleheader pattern for the day by splitting with New York, losing 8-7 before walloping the Mets 10-4. Philadelphia edged Cincinnati 8-7 in 10 innings but the Reds won 3-1 behind John Tsitouris' four-hitter. Pittsburgh's Bob Friend blanked Milwaukee 4-0, then the Braves took the nightcap 5-3.

The Chicago White Sox took over first place in the American League with a 4-3 decision over Kansas City, Boston dropped Baltimore to second by edging the Orioles 3-2 in 14 innings, the New York Yankees whipped Detroit 6-2, the Los Angeles Angels downed Minnesota 4-2 and Cleveland defeated Washington 7-3.

Despite three homers by the Cubs' Ernie Banks, the Dodgers had the bigger bombers with Wills combining with Tommy Davis. Since Wills has returned, Davis has hit at a .455 clip. He was 4-for-5, including a homer, against the Cubs, raising his average to .329. Larry Sherry, working in relief of Sandy Koufax, was the winner. Dick Ellsworth, 8-4, took the loss.

The Mets benefited from Cardinal errors by Bill White and Stan Musial, collecting four runs on the two muffs to take a large step to the opening game victory. In the nightcap, the Cards piled up nine runs in the seventh and eighth innings—four coming on an inside-the-park grand slam homer by Tim McCarver. White also homered in support of Ray Sadecki, 3-4.

Tsitouris got all the support he needed in the Reds' nightcap triumphs on homers by Vada Pinson and Pete Rose, who accounted for another run with a sacrifice fly. The Reds led the opener 7-2 behind Bob Purkey going into the ninth but homers by Don Demeter, Jim Lemon and John Callison—his second of the game—tied the score. The Phillies then pushed the winner across in the 10th on Bobby Wine's infield single.

Friend, 8-4, won the opener for the Pirates with home run support from Ted Savage and Donn Clendenon and a two-run double by Roberto Clemente. Warren Spahn, 8-3, got credit for the Braves' nightcap with Bob Shaw's relief help. Mack Jones' double was the big blow of a decisive two-run eighth inning helped along by three Pirate errors.

TIBURON BOWS IN '63 OPENER

Tiburon Pelicans, showing signs of rustiness in their first game of the season, suffered a 5-0 whitewashing at the hands of the Pittsburg Merchants yesterday at Tiburon's Judge Field.

The Pelicans could muster only four singles, struck out 14 times and commited six errors in their first game of 1963.

Tiburon's hits were by Eddie Vigno, pitcher Mike Wyman, Don Farber and Frank Rios. The Pelicans had the bases loaded with no outs in the third inning, but Pittsburg righthander Rod Atuip retired the side on three straight strikeouts.

Wyman pitched creditably but the six errors enabled the visitors to score three unearned runs. He struck out six.

Builders Downed By Cal Vets 3-2

The Billings-Hutchison Builders, despite the six-hit pitching of southpaw Bob DeRosa, were defeated by the Cal Vets of Yountville 3-2 yesterday.

The Builders outhit the Vets eight to six, led by Dick Spackman's single and triple which accounted for one of the Builders' runs. Spackman also made the fielding gem of the day with a diving shoe string catch in the eighth inning with two runners on base.

De Rosa, suffering his first defeat in more than three months, struck out 10. Also doing some of the hitting for the Builders were Don Lauters with a double and Jerry Daniele with a key single.

San Anselmo Nine Suffers 9-8 Loss

The San Anselmo Merchants lost a narrow decision to the Hollister Merchants, 9-8, yesterday in a semi-pro baseball game in Hollister.

San Anselmo had 14 hits, led by Ray McDonald with two doubles and a single; Allen Simontacchi with three singles, and Don Lowpinchky with a double and two singles.

Hurler Lowpinchky suffered the loss.

M.V. Merchants Lose Game 8-7

The Mill Valley Merchants took it on the chin yesterday when Melody Ramblers of Richmond nipped them 8-7 in a semi-pro baseball game played at Project 17 in Mill Valley.

Mill Valley outhit the Ramblers 12 to 8, but the locals left 13 runners stranded on bases. Losing pitcher Frank Burch struck out 13 batters.

Mill Valley's attack was led by Charlie Modeste with a two-run homer, Kit Bricca with two hits and two runs batted in, and Sandy Slack who also hit safely twice and drove in two runs.

The Merchants will travel to Healdsburg Friday night for a contest with the Healdsburg Panthers.

United Market Baseballers Win

Mark Maas doubled home a run in the bottom of the ninth inning yesterday to lead United Market to a 6-5 verdict over Terra Linda in a San Rafael Senior League contest.

The victory evened United's record at 1-1 as Bob Redding hurled the win. Ken Erdman and Brad Litchfield each had two hits for United, as did Redding.

Bill Barker with three hits led the Terra Linda attack, along with John Fedorchak's bases loaded double.

Parsons Grabs Laguna Seca Win

MONTEREY (AP) — Reliability was not the keynote of the $5,000 U.S. road racing championships Sunday at Laguna Seca.

Charles Parsons of Monterey won the 150-mile event, but only after two leaders and a favorite were shunted to the pits with mechanical troubles.

Mexico's Pedro Rodriguez, a leading international driver, in a Genie-Chevrolet, dropped out on the 20th of 79 laps with engine trouble.

Jerry Grant of Kent, Wash., who had the fastest qualifying time, led for 49 laps but then his Buick-Lotus blew its engine.

Dan Devine of Chicago inherited the lead in a Scarab but his brakes failed on the 62nd lap.

And so Parsons, moving his Lotus 23 into first place by attrition, won by nine seconds over the Porsche RS-61 driven by Don Wester of Monterey. He averaged 86.2 miles an hour.

While Parsons got the drivers' points, Ford took the manufacturers' points when its Cobras led the manufacturers' division with a fifth, sixth and seventh place blanket finish.

Skip Hudson of Riverside was the leading over-2000 cc driver in Chaparral, which finished third.

Jim Parkinson of Burbank was fourth in a homemade Campbell. Bob Holbert of Washington, Pa., Dave MacDonald of El Monte, and Ken Miles of Hollywood drove the three Cobras.

A crowd of about 23,000 watched under clear skies. Merle Brennan of Reno, won a 30-minute preliminary A-D modified and production race in a Jaguar at 80.7 mph.

Griffith-Rodriguez Rematch Likely; Who's The Best Man?

NEW YORK (AP) — After three fights and 40 rounds, Emile Griffith and Luis Rodriguez are as close as a couple of teen-agers in a movie balcony.

Chances are they'll fight again. Chances are that it will be close, controversial and inconclusive.

"Sure, I'd fight him again," Griffith said after he had regained the world welterweight title for a record third time with a split, 15-round decision over the Cuban exile Saturday night.

"Why not?" Griffith asked. "Everytime we fight we make money. That's what we're here for."

"We gave them a rematch," Rodriguez' manager Angelo Dundee said with obvious bitterness. "I hope they have the courtesy to give us one."

Griffith's managers, Gil Clancy and Howard Albert were non-committal. But Henry Markson, general manager of Madison Square Garden, seemed less than enthusiastic.

"These two men are so evenly matched that they have fought three times now and still no one knows for sure which is really the better fighter," he said. "Who knows that a fourth fight would change the situation?"

Griffith, a 24-year-old native of the Virgin Islands who now lives in New York, won the first fight with Rodriguez, a split, 10-round decision before either was champion. Rodriguez, 25, and a native Cuban now fighting out of Miami, won the welterweight title when he scored a unanimously but loudly disputed decision over Griffith March 21 in Los Angeles.

SPLIT VERDICT

Saturday, a crowd of 8,081 and a national television audienec saw Griffith regain the crown in a split decision. Referee Jimmy Devlin and judge Tony Rossi voted for Griffith, 9-6 and 8-7 in rounds. Judge Joe Armstrong had it 10-5 for Rodriguez.

"I beat him inside," Griffith said later. "He was beginning to feel in in the later rounds. I'm very happy, but I'd feel much better if I'd knocked him out. Then there wouldn't be any doubt about it."

Ringside writers didn't agree. A poll of the writers actively covering the fight had it in favor of Rodriguez 9-4. The Associated Press had Rodriguez in front 8-6-1. A majority of the writers covering the Los Angeles fight, won by Rodriguez, favored Griffith.

"Luis dominated the fight all the way," Dundee said. "He made Griffith do the leading, had him lunging and missing badly. All he didn't do was knock him out."

"I did my best," Luis said. "What else can you say?"

Each fighter went in at 146½ pounds. They were even money at fight time. Rodriguez collected $40,000, Griffith $37,500.

Miserable Day On The Bay; Many Yachts Quit Regatta

By ALFRED MATSON

It was the consensus of opinion, after yesterday's one design class races of the Richmond-Berkeley Regatta, that conditions were at their worst, more miserable than even the direst of winter race meets.

The winds piped up to 25 knots, seas were high and a murky overcast made it a day that made many a sailor wish he had stayed home and mowed the lawn; as Hap McGill of the San Francisco Yacht Club said so aptly, "I was never so wet, or so cold and I wondered how yacht racing ever came under the heading of sports."

There were 247 eager beavers at the starting line but with worsening conditions in early afternoon, many gave up the chase and headed for home and a hot shower.

There was a mild upset in the Golden Gate class with the perennial winner Lively Lady, Mike Shea, SFYC, being edged by Tom Griffin's Alii of the Richmond Club.

Bob Detner's Fun, SFYC, came down the home stretch in a rush to pick up third place honors. Scorning the wintry conditions, the salty sailors of the Folkboat showed up in goodly numbers, 37 to be exact, the largest fleet in the regatta.

Rick Wolff, GGYC, moved into an early lead to win going away in Skall. Debonair, O. Everett, RYC, was second and Filur, Herm Zwart, GGYC, third.

The hottest race of the day featured the Rhodes 33 class boats of John Matarangas' Reveille, St. Francis Yacht Club, and Hugh Harris's Dusty, SFYC. A hot race from start to finish, never more than a boat length apart, Reveille won on a near photo finish, but one second on top.

Chateaugay Rides High On Throne

NEW YORK (AP) — Chateaugal rode high on the throne of three-year-old thoroughbred racing today following his thrilling stretch drive victory Saturday in the Belmont Stakes.

Chateaugay, who upset Candy Spots in the Kentucky Derby, then bowed to that California flyer in the Preakness, grabbed the rubber match in their thrilling Triple Crown duel at Aqueduct.

The stunning result abruptly reversed the three-year-old title speculation. Rex C. Ellsworth's Candy Spots was supposed to cement his claim, but John W. Galbreath's Chateaugay rode high on the throne today.

Chateaugay and Jockey Braulio Baeza permitted Willie Shoemaker on Candy Spots to set the slow pace, then blasted past them in midstretch to win the 1¼-mile classic by 2½ lengths.

Until they turned into the homestretch, Chateaugay came outside for his winning bid. Candy Spots and Louis Lee Haggin 2nd's Choker were in front, but both came off the rail. Baeza shot Chateaugay down the inside and it was all over.

The Wolverhampton Wolves, third-ranked team of the British Isles, defeated the Mexico City Select Soccer Club, 3-0, yesterday in a game at San Francisco's Balboa Stadium.

GIANTS CAN'T EVEN GET OFF THE GROUND

HOUSTON (AP) — Nothing seemed to go right for the San Francisco Giants in Texas.

After losing three games in a row to ninth-ranked Houston, the Giants boarded a plane aimed for their big series against the league-leading Dodgers in Los Angeles.

The flight to Los Angeles was canceled due to engine trouble at 1 a.m. Houston time, after the plane full of Giants waited for an hour and a half on the runway.

The San Francisco team made reservations for a morning flight today guaranteeing a noon arrival in Los Angeles.

Pass Me No Bitter Pills

I have often been the object of quizzical disbelief because of my persistence in maintaining a bantering attitude in the face of adversity. My face does not purple with rage. Veins remain placid. And blood pressure is so calm it is suspect. This is not at all according to script, so what gives?

Why don't I have cardiac palpatations when trouble disturbs the normalcy of routine activity? How come I refuse to engage in verbal battle with a customer driven to stuttering rage over a minute error of omission? Can I possibly justify being calm when an error in judgment wipes out the profit of an entire month's perspiring effort?

Rage and bitterness has solved no problems for me. I've been the route. A vitriolic temper tantrum merely adds fuel to the already raging fire, and much damage is done by the time the embers and tempers cool enough to sift for scars. No, I prefer the cooling caress of an unfettered brow to the deep furrows of uncontrolled anger.

There is much too much inclination to fly off the handle at the slightest provocation. Too many people carry a hair-trigger nervous system. They walk in stilted fashion, balancing a chip on each shoulder. And, everything and everyone from the Hydrogen Bomb to the yapping puppy down the street is blamed for this spontaneous cantankerousness.

The prime target of this mass bitterness and bad manners are the thousands of men and women whose occupations are based on serving the public. Witness the undeserved abuse heaped upon a waitress over something entirely beyond her control. And, haven't you ever squirmed uncomfortably while a companion rudely berated a bank teller because of an error made by a computing machine in some downtown building?

When a man or woman stalks into my office wearing the tell-tale mantel of thinly-suppressed rage, I throw no fuel on the fire. Instead, my voice carries a more-than-normal calmness of tone, as I seek out the source of the iritation. It is surprising how quickly the rage dissolves and reason takes over. Then, it is not difficult to solve the problem and gain complete confidence and satisfaction.

This is why you will find much good humor and bantering at Ames Ford. We mean business, but business is better with a smile than with a frown. Come in—just try to provoke us. There isn't a fighter in the bunch.

Marin Youth Plans Summer In Finland

A Redwood High School junior, Peter Holter, son of Mr. and Mrs. Paul C. Holter of Kentfield, will spend the summer in Finland as an American Field Service exchange student.

Holter will board a student boat, Seven Seas, chartered by A.F.S. in New York on June 26. He will live with Mr. and Mrs. Eine Juusela and their two sons Olli and Ilkka, in the city of Pori for two months.

Pori, in southwest Finland on the Sea of Bothnia at the mouth of the Kokemaki River, has a population of about 43,000. Its main sources of income are wood products and ship building.

Juusela is a lawyer and director of a savings bank; Mrs. Juusela is a druggist.

Holter, who enjoys basketball, track, and swimming, was glad to learn the brothers, Olli and Ilkka, "are both fond of athletics, especially sports." The only communication Holter has received from Pori has been the introduction messages sent through A.F.S. headquarters in New York.

Language is one of the biggest problems, says Holter, as he knows no Finnish and the Juuselas do not know much English. The problem will be overcome aboard the Seven Seas, where two Finnish students will instruct the 50 Finland-bound youths.

Holter will return to New York Sept. 9 and proceed home for his senior year at Redwood.

The chicken, two and a half feet tall and made of plastic, had been perched atop a truck operated by the company, located at 1574 Fourth Street, San Rafael. It was lifted from its nest, apparently while the truck was parked at a nearby service station for the night.

Edna Wessell To Leave Teaching Career Of Three Decades In Marin

By CORENA GREEN

Teaching on the Tiburon Peninsula during World War II is recalled by Edna Wessell as the most challenging experience of her teaching career.

Mrs. Wessell will retire Wednesday after 22 and one-half years in the Reed Union School District, four of which she served as assistant principal. Ten years prior to that she taught in Lagunitas.

"Children came from all over the world with their military families. Hilarita at the time was reserved for officers of the Tiburon Naval Net Depot and their children had seen a great deal of the country. They were fascinating to teach," she says.

"We had 83 children in the Tiburon School and during a school year we would transfer in and out 40 or 50 of them because of the mobility of the military people. Furthermore, we were in a strategic position with the railroad in our front yard transporting high explosives and we were constantly guarded by Marines. No one knew exactly what would happen."

The Wessell family roots are deep in Marin County. Mrs. Wessell's family had bought property in San Anselmo before the San Francisco earthquake and moved from San Francisco over here when she was in the fourth grade. They entered the building business.

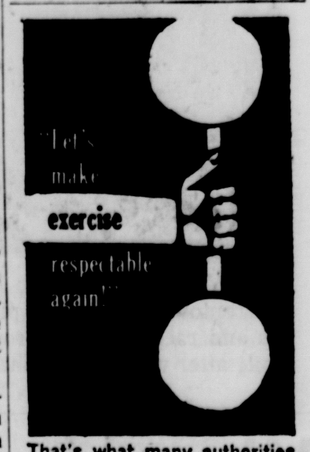
It was at the San Anselmo Grammar School where she met her husband, Anselm, a native of San Anselmo. They always lived near each other, eventually married, and have one daughter, Mrs. Joseph Bregante, and a 3-year-old granddaughter, who also live in San Anselmo.

Anselm Wessell is associated with McNear's brickyard.

Following graduation from San Francisco State College, Mrs. Wessell taught in a one-room school at Pacheco, in the Nicasio area. She had seven pupils in four grades and, as was traditional in the rural areas, lived with a local family. In this case it was on the McIsaac ranch owned by a pioneer Marin family. Their two boys were in her class. Donald McIsaac is now president of the West Marin School District board.

In 1941 she moved to Tiburon and taught sixth through eighth grades in the Tiburon school. Following unionization of the district, she moved to the primary department and four years ago was named assistant principal in charge of both the Belvedere and Tiburon schools.

Mrs. Wessell has a background of club work which includes the presidency of the Business and Professional Women several years ago. She says she may return to club work "after a while" but for the present plans to involve herself in nothing of a routine nature. "I'll probably garden," she says.



That's what many authorities on child health are saying nowadays. They view with growing concern the lack of vigorous activity that once kept young bodies "in shape." They strongly urge more daily exercise to improve the physical condition of every girl and every boy.

What can you do about this problem? First, you should find out about the physical education program in your child's school. Talk it over with your local school officials.

If your child's school doesn't have a program calling for at least 15 minutes of vigorous activity every day, urge the adoption of a program that will do so.

A basic program has been developed which any school can easily get started. For information about it, write to The President's Council on Physical Fitness, Washington 25, D. C.

Civic Ballet Association To Present First Program At The Art And Garden Center

The Marin Civic Ballet Assn. organized in February, will present the first of its artistic functions on Saturday at 2 p.m. at the Marin Art and Garden Center in Ross.

Mrs. Harold Farb and Mrs. John Degenhardt, co-chairmen for the affair, announce that the Prevue-Tea is being presented as a purely cultural activity, and will be open to the public with no admission charge.

Beginning with the preliminary and fundamental positions of the dance, students will demonstrate various gradations of the ballet. Forecast—The Late Day Dress

By GAY PAULEY

NEW YORK (UPI)—Say goodbye to the cocktail dress in noth title and traditionally full skirt. Bid farewell to the little black crepe dress for late day once the standby of every fashion - conscious woman's wardrobe. And say adieu also to the sweeping, full-skirted ball gown.

All these are so rare in the New York fashion collections for fall and winter you can count their appearances on your hands.

In their place, new names, bold and pastel shades to replace the black, and slithering evening gowns reaching to the floor.

"THIS SEASON, I predict the long dinner dress will be worn where last year a woman would have worn a short dress," said Larry Aldrich, president of the New York Couture Group.

And in the two weeks I've been covering openings of the new collections, shown mainly for the nation's store buyers, I've heard the phrase "cocktail dress" twice. More often, it's a late day dress in the parlance of the showroom commentator.

These dresses have changed in line from bell-shaped skirts and scooped necklines in warp silks to the sheerest wools or crinkly and carved silks in colors ranging from palest pink and lime to bright reds and greens.

A favorite combination for late day features a parrot green coat lined with shocking pink topping a matching pink dress.

The line of the late day dress: slim.

FOR MORE FORMAL occasions the look is also lean for the new season. There are a few dresses shaped closely to the figure with Empire waistlines. But most depend on draping the fabric, through seaming and bias cut. To outline the figure — skimming lightly over it not hugging it.

Designers use both black and pastel colored wools of sheerest weight for many of the dinner dresses. By contrast, almost every collection has a group of formals n handsome and costly brocades, metallics and jewel embroidery.

To go with the long, slinky evening dress: The floor length evening coat. Here, several designers let the coat have more fullness at the back to give a sweep as the woman walks. Others cut it straight and narrow and as tailored as a man's Chesterfield.

Numerous in both short and long dressup coats are the copies of the casual trench coat. Everything's casual these days on Seventh Avenue.

SOME OF THE highlights:

—Boots everywhere, worn with bulky tweeds and mohairs, instead of the basic pump for town wear. In suede or kid, they show in two heights—ankle, with a single eyelet tie, and well above the calf, as a pullon.

—PANTALOONS yet. Dior-New York's new designer, Gaston Berthelot, created a tweed costume with pantaloon "skirt" bulkier than the old-time golf course knickers the men wore.

—Cable knot stockings worn

Never Grade Seams That Form Suit's Construction Details

By EUNICE FARMER

"I am making a suit with a notched collar. When I graded my seams where the garment joins the collar, they wouldn't stay pressed open. Any suggestions?" Mrs. J. McK.

Dear Mrs. J. McK:

Your mistake was in grading these seams. As you know, grading your seams means cutting them in two different widths to avoid a ridge when they are pressed. Only faced edges, such as those down the front of a garment, around collars, necklines, etc., should be graded. These are seams where there is an actual facing stitched to garment. Never grade the seams that form construction details on your garment.

My only suggestion at this point would be that you try catch-stitching the seam allowances down to the under collar. This will leave only one layer of seams free. Let's hope you'll be lucky and that they won't curl up and make the collar lumpy.

Mrs. B. G. says: Slip a piece of waxed paper over the area on which you intend making a machine buttonhole. Stitch through the paper and your buttonhole will come out perfect every time. This is especially helpful when you are working on any kind of synthetic fabrics which have a tendency to pull easily.

"I have very prominent hip bones which are quite high and the darts at the front of my skirts seem to pull my skirt out of shape. My darts aren't too deep, so what else could cause this?" Mrs. G. D.

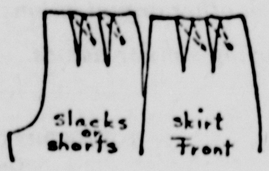
Dear Mrs. G. D.:

As I have said before, darts are merely an aid to good fitting and they must be changed to suit the individual figure. In your case, a dart that is more than 2½ to 3 inches long would be taking fabric away from the hip bones where you actually need a little extra room.

Try making darts by moving the point of the dart so it is a little less than 3 inches below the waistline and about 1½ inches closer to the side seam than shown on the pattern. The top marks for the dart will remain the same. Your darts will now be slanted toward the side seam and should give you the fullness and the fit you need.

You could also eliminate the front darts altogether and run a gathering stitch across the top of the skirt. The amount you would ease would be the same as you would take up in darts and would not appear too full or bulky. Have fun and experiment.

Mrs. Mimi Riley, Blackstone, Mass., wins this weeks tailor trix pressing board with this suggestion.



"I am a former sewing teacher, and how I wish I had your excellent hints when I was teaching, they are priceless. I am now a dressmaker and would like to submit the following:

"To cover metal form buttons with a dark fabric, glue a piece of fabric on the form with colorless all-purpose glue. After it is dry, clip the excess from the edges and cover with your dress fabric. The extra layer of fabric will keep the shine of the button from showing through."

"Every time I use a pattern with unpressed pleats instead of darts, they are turned in just the opposite way that they seem to be in the picture on the pattern. Are the pictures always right?" Mrs. L. E. R.

Dear Mrs. L. E. R.:

Usually the pictures on the pattern are accurate and I am almost sure you are making a rather common mistake. When you mark unpressed pleats on your fabric, you must tailor-tack these instead of marking with chalk. They must be made from the right side of your garment to come out correctly. Hold the right side of your pattern in front of you and check the direction they will go according to the arrows on the pattern. In this way you can check yourself and avoid any mistakes.

Summer is a relaxing time to think about all your sewing questions and sewing tips. I'd love to hear from you and promise to answer the most frequently asked questions in this column. Please send your letters to Sew Simple, in care of the Independent-Journal. It's a perfect time of year for our little satin pill-box hat (guaranteed not to mess up a pretty hair-do?) Just send a large, self-addressed, stamped envelope to Sew Simple with your request for directions for making the hat.

THE BETTER HALF By Bob Barnes

"Are you sure you're my wife? . . . You act more like a cruel steomother."

YOUR HOUSEHOLD

Saga Of Dryer Is A Moving Story To Modern Housewife

Once it was only by accident, by concession or by crusading that an occasional woman got into industry, public office or other paid employment. But today it is the franchise and fortune of 23 million women to hold practically any job to which men were once the sole heirs. Over half of these women are married.

With the influx of distaffers into the labor force came the home that would provide more efficient and less time consuming ways of doing household chores.

For the working mother (there were eight million at last count) was not about to spend every home-bound moment keeping her castle in order.

Hence, the automatic dryer . . . invented by a man who remembered the many times in his youth that he stumbled out of a farm home to hang up washing for his mother in the teeth of a North Dakota gale. Years later, Ross Moore, basement inventor by this time, wondered how many women would like to have comfortable drying facilities.

This was the start of the clothes dryer, the laundry device that has wended its way into American homes to the tune of almost 13 million since 1946, the first year it went into major production.

As in most American products, many changes and improvements were necessary to keep up with progress in other fields. With the dryer, it was meeting the demands of the scores of different fibers and fabrics that have come into the market in the way of washbasket items in the last decade.

And here it was that the dryer became a need — not a convenience. Wrinkles resulting from wearing garments that contain any of the synthetic fibers can be removed only by higher temperatures than are possible with line drying. Thus the heat of the dryer is needed to bring out the best in these easy-care fabrics.

Col. GEORGE H. SIBBALD

Maj. JERIMIAH V. HAYHURST

Two Army Officers Retire From Service

Two army officers living in Marin County have just been awarded the Army Commendation Medal as they retired from service.

Presentations were to Col. George H. Sibbald of 6 Island Drive, San Rafael, and Maj. Jerimiah V. Hayhurst of 255 Richardson Drive, Mill Valley, by Maj. Gen. J. E. Theimer, commanding general of the XV Army Corps at the San Francisco Presidio.

A native of Ohio, Colonel Sibbald entered the army in 1941 and was commissioned a second lieutenant of infantry in August of 1942.

He served in Europe during World War II, participating as a company commander with the 117th Infantry Regiment, 30th Infantry Division, in the campaigns for Normandy, Northern France, Rhineland, Central Europe and the Ardennes.

Colonel Sibbald served as member of the China Advisory Group in 1947-8 at Nanking, Hankow and Chengtu. Then he was transferred to Osaka, Japan, for service in G3 (plans and training) with the 25th Infantry Division.

Before assignment to the Eighth Army in Korea in 1958 he studied Korean at the Army Language School, Monterey Presidio. He served as division advisor to the Korean Military Advisory Group before returning to the United States and duty in Headquarters 15th Army Corps in July of 1959.

Colonel Sibbald holds the Silver Star with Oak Leaf Cluster, the Purple Heart, the Bronze Star Medal (valor) and the Combat Iinfantryman Badge. His latest honor is for service as senior advisor to the 91st Division (training), an army reserve division based at the San Francisco Presidio.

The presentation to Major Hayhurst was for meritorious service as adviser to army reserve units in the San Francisco Subsector Command of the 15th Army Corps.

Enlisting in the army at 16 during the early stages of World War II, Major Hayhurst completed basic and parachute training with the original 501st Parachute Infantry Regiment and in 1943 was subject of a national magazine article as "the youngest paratrooper in the U.S. Army."

At 17, the then Sergeant Hayhurst was an infantry squad leader in the parachute force. A year later he had risen to platoon sergeant.

Major Hayhurst served in the famous 11th and 101st Airborne Divisions during World War II and jumped with a special force to liberate 3,000 American and British civilians held by the Japanese on Luzon. He led his platoon in a key attack on a Japanese bunker complex at Nichols Field near Manila, turning the flank of the Japanese forces and leading to complete rout.

Three days before the war ended Hayhurst flew into Japan to help secure Atsugi Airdrome for allied forces' use on the way to the Japanese surrender. At 20, he was the youngest master sergeant in the 82nd Airborne Division and the youngest man to hold the master parachutist badge.

Commissioned as an infantry lieutenant, Hayhurst served in Korea as a platoon leader, company commander and battalion staff officer with the Third Infantry, earning the Silver Star, two Bronze Star medals and two Purple Hearts.

He later transferred to the Quartermaster Corps and served in Fort Campbell, Ky., an din Puerto Rico. In 1959 he was selected to complete work for his college degree under the army's "final year plan" and earned his B.A. from Florida State University, being named "outstanding student" by the dean of men.

He has served as adviser at the San Francisco Presidio since 1960. In 1961 and again last year, units which he advised were selected by the Department of the Army as "superior" reserve units.

Major Hayhurst expects to enter business, keeping his Mill Valley home.

Enchanted Knolls Compromise Try

The developer of Enchanted Knolls was told Saturday by the Mill Valley City Council to sit down with city planning consultant John Erickson to try to work out a compromise for planning for the proposed 83-acre project.

Developer Sherill Broudy asked again for commercial zoning of land near the waterfront. The land is now zoned for commercial-recreational use, which allows such uses as boat harbors, motels and restaurants, but not major retail stores.

Broudy has also asked for apartments, to go with the homes he has planned to build. In the past Councilmen William Secor and George D. Monardo have opposed apartments in the area.

Higher Civil Service Pay Is Announced

Civil service salaries for graduates in chemistry, mathematics, metallurgy or physics will start $1,125 a year higher for those meeting superior scholarship standards, according to an announcement today by E. A. Rossi, civil service examiner in the San Rafael Post Office.

Those who do not meet the scholarship standards will receive $5,525, while those who do, $6,650 a year. This is for candidates without prior experience. In chemistry, an applicant with experience can receive as high as $12,845 a year, Rossi said.

There are openings in these fields in California and Nevada, Rossi said. Persons who are qualified and interested should contact him for more information.

Hub City Chamber Changes By-Laws

Directors of the San Anselmo Chamber of Commerce Thursday approved two changes in by-laws designed to increase interest and membership.

One change broadens the definition of associate member to include professional men within the city limits. This $12-a-year membership formerly was only for businessmen living outside the city limits. The $24 fee for businessman membership within the city remains the same.

A second change calls for dismissal from the board of any director who misses four consecutive meetings. This, said Mrs. Patricia Mann, chamber vice-president, is to keep as many active directors as possible on the board.

Budget On Agenda For Kentfield Schools

A fiscal 1964 budget of $826,000, up $11,000 over the present year, will be discussed by the Kentfield School District Board at 7:45 p.m. today in Wolfe Grade School library.

The budget is item 4 on a jammed agenda that includes review of library furniture bids for the Adaline E. Kent School addition, plans for the next Wolfe Grade School addition, four teacher resignations, and hiring of non-teaching personnel.

Corte Maderan Hurt In Crash

A Corte Madera driver was injured when his car went out of control on Highway 101 at the foot of Alto Hill, crashed through a chain link fence and overturned onto Paradise Drive at 2:40 a.m. Saturday.

The driver, Ronald Gary Bradshaw, 26, of 45 Tamal Vista Road, suffered a cut forehead. He was treated at Marin General Hospital and released today.

The California Highway Patrol reported that Bradshaw was driving north when his car veered off the highway and damaged 30 feet of chain link fence.

Three Budget Requests Due In Sausalito

The recreation, planning and library budgets will come up for scrutiny tonight before the Sausalito City Council at 8 p.m.

Saturday, councilmen and city department heads made a tour of the city as they discussed proposed street projects for the 1963-64 fiscal year.

The Recreation Commission has asked $20,000 for development of a neighborhood playground on land on Cloudview Road donated to the city.

The Planning Commission is seeking $21,000 for a central downtown site plan, while the library has requested $27,000 some $8,000 above this year, with the increase going for more books and personnel.

Teacher Hurt In Auto Crash

Jeanne Mahon, 25, of 602 Humboldt Street, Sausalito, a Reed School teacher, suffered multiple bruises and cuts Thursday night when her small French sedan hit a utility pole in Marin City.

She told California Highway Patrolman Angelo Corvino she was returning home from Sabella's Restaurant shortly before 8 p.m. The next thing she knew someone was telling her she was "all right" after the car hit the pole off Bridge Boulevard.

Miss Mahon was treated at Marin General Hospital, then transferred in "fair to good" condition to Kaiser Foundation Hospital, San Francisco.

Sleeping Man Runs Car Through Part Of Garage

A Santa Venetia man fell asleep while driving home at 5:27 a.m. Friday in Mill Valley. His car ran through a portion of a garage, down a bank and landed upside down in a greenhouse.

Harry Wayne Lenhart of 306 Adrian Way suffered slight cuts on his face, police said, but refused medical care.

Lenhart told Officer Robert Dyche he was returning from Stinson Beach. As he drove south on Edgewood Avenue, he fell asleep. The car ran off the road, plunged down 75 to 100 feet. It hit the garage, knocked over several hand-laid retaining wall stones, and ended up in the broken greenhouse of Leslie Hood at 73 Hazel Avenue. It also took with it some shrubs and trees, a fence railing, and a staircase, police said.

Linfield Graduate

David Moyer, son of Rev. and Mrs. Gerald S. Moyer, 9 Granada Drive, Corte Madera, has received a Bachelor of Arts degree in world literature from Linfield College, McMinnville, Ore. He was awarded the degree at the college's June 2 commencement exercises.

Fight Over Job Lands One In Jail

A fight over a painting job put Francis Perle Pickens, 43, 272 Forrest Avenue, Fairfax, in jail Friday charged with battery.

Pickens and Joseph Feig, 404 San Francisco Boulevard, San Anselmo, both painters, were in a tavern on Greenfield Avenue in San Anselmo at 5:25 p.m. yesterday when they got into an argument over a job they both wanted, according to Sam Serio, San Anselmo assistant police chief.

Pickens allegedly knocked Feig down and struck him, inflicting numerous bruises, Serio said. Pickens was released from county jail on $1,050 bail today and was to appear in court today.

HOW TO PLAY

WINNING BRIDGE

By ALFRED SHEINWOLD

Proverbs, Like Promises, Were Made To Be Broken

"The queen lurks behind the jack," says the old bridge proverb.

There may be something in this, but don't rely on it if you have anything more solid to go by. Proverbs, like a bridge player's promises, were made to be broken.

Opening lead — ♡ J

South counted 11 tricks in top cards. He could make the slam if he guessed either of the missing queens or if the hearts broke 3-3.

DECLARER DECIDES

Declarer decided to play East for the queen of diamonds, then to try the hearts, and finally to play West for the queen of spades.

The idea was to play each queen to be at the left of the jack of her suit.

It was all very interesting, but you can see where it landed South. He scored minus 100 instead of plus 1640. It's a slow way of making a fortune.

SOUNDS GOOD

The theory of locating a missing queen sounds good. If you finesse with a jack, losing to the queen, a careless shuffle may leave those two cards in the same position in the deck.

Then the queen will be dealt to the left of the jack the next time the same deck is used.

If the queen and jack are separated by the shuffle, or if they were not played on the same trick, the queen is as likely as not to be at the left of the jack.

50-50 CHANCE

This is a straight 50 per cent chance. The chance that the queen and jack were together on the same trick and were not separated by the shuffle is supposed to be something extra.

It might be more to the point to think back to the last time the deck was actually used and remember the card above and below a missing queen. But this would still be clutching at straws (and a nuisance to the other players while you put on your memory act.

The right way to play today's hand is to guess nothing. Run the four clubs and the three top hearts. Then give West his heart trick. He must return a spade or a diamond, giving you a free finesse.

You can't lose, no matter where the queens are lurking.

Today is Monday, June 10, the 161st day of 1963 with 204 to follow.

The moon is approaching last quarter. The morning stars are Venus, Jupiter and Saturn. The evening star is Mars.

On this day in history:

In 1776, the Continental Congress appointed a committee to draft a Declaration of Independence.

In 1864, the USS Kearsarge sank the Confederate cruiser Alabama off Cherbourg, France, during the Civil War.

In 1898, U.S. Marines began the invasion of Cuba in the Spanish-American War.

A thought for the day — Henry David Thoreau said: "It takes two to speak the truth—one to speak and another to hear."

Everyone Benefits When Youths Get Summer Jobs

Many of you have received in the mail a communication from the State Department of Employment asking your cooperation in hiring of youth during the summer vacation. We hope you will cooperate by filling out the blank that was enclosed and returning it to the department.

This is "Youth Employment Month." It also is "Apprenticeship Month." The reason is obvious.

This time of year thousands of boys and girls in Marin and elsewhere are leaving school for the summer; some for good. Those that plan to go back in the fall are looking only for short time work; they want a job, they don't want a career.

Some, however, are starting on their careers even though they are only finishing high school. These are ones who will be looking for permanent jobs; jobs with a chance of advancement; jobs with a future. That's where the state's apprenticeship program comes in. It trains youths to go into the trades.

Businesses can enter into the apprenticeship programs by accepting these youths into their shops and stores on solidly designed training procedures. They get helpful assistance while the youths are learning and well-trained journeymen when the program is completed. And of course, the youths benefit from the training, too.

Everyone, including businessmen, can cooperate in the summer employment program. There are many things around the house, yard, summer camp or the neighborhood which need doing. Young workers can do them.

This has many desirable results. First, of course, it gets the work done. Second, it gives employment to youths who need money, not only for their summer activities but for next year's schooling as well. Third, it keeps youths active and occupied, gives them less time to get into trouble and provides them with money so that they won't be as apt to get into trouble because of not having any.

All in all, everybody gains through the youth mployment programs.

If you haven't been contacted by the state employment office, don't be bashful. Call them up and tell them you have a yard that needs caring for a garden that should be dug.

They'll be happy to hear from you and so will the youth who gets the job.

WATCH OUT FOR FLATTERY

"Flattery corrupts both the receiver and the giver." This forthright statement, made by Edmond Burke in 1790, echoes the thoughts of wise men down through the ages.

More than 600 years before Christ, Solomon, King of Israel, made many profound observations on the subject. Here are some from the Book of Proverbs:

"As the crucible tests silver and the furnace gold, so a man is tested by the praise he receives." (27:21)

"He who rebukes a man gets more thanks in the end than one with a flattering tongue." (28:23)

"The man who flatters his neighbor is spreading a net under his feet." (29:5)

"If a ruler listens to lying words, his servants all become wicked." (29:12)

Despite repeated warnings against the dangers of flattery, all too many persons unwittingly become its victims. They learn too late what John Ray meant when he said in 1678: "When flatterers meet, the Devil goes to dinner."

Neither seek nor give flattery. But do compliment those who justly deserve praise, at home, school or work. You will be more in tune with God if you do.

Let me neither deceive nor be deceived by flattery, O Father.

THE LIGHTER SIDE

Don't Waste Time On Mousetraps, Go Build A Better Screw Hole

By DICK WEST

WASHINGTON (UPI) — In covering astronaut Gordon Cooper's space flight last month. The radio networks were at times hard pressed for material to keep the airwaves busy when nothing much was happening.

It seemed to me they interviewed every person who had any remote connection with the space program. And then they interviewed his brother-in-law.

On occasions, when there was a delay in the countdown or some other uneventful interlude, I got the impression they were going out and dragging people in off the streets.

Even so, there was one angle that the broadcasters apparently miss and, in order to make the record complete, I shall attempt to fill in the gap.

I have just been interviewing the man who manufactured the screw holes for Cooper's capsule.

To the average layman, who has only a limited acquaintance with nuts and bolts, screw holes may not seem very important. I was unaware of how vital they are, and some of my best friends are nuts.

But after talking with Eduard Baruch, president of the Heli-Coil Corp. of Danbury, Conn., who was here on business, I will never take screw holes lightly again.

It would perhaps be going to far to say that Cooper couldn't have orbited at all without Baruch's screw holes. However, there is no gainsaying that they represent a major contribution to the space program.

They have made possible advances in the use of so-called light materials — aluminum, magnesium, plastics, fiberglass, etc.—that would not otherwise have been possible.

"These materials had one common limitation," Baruch explained. "The strength of the threads in the material was less than the strength of the screw or bolt used to assemble it to something.

"Under heavy stress, the threads would strip or pull out and the thing the screws or bolts held together would begin to shake, rattle or come apart."

In 1949, Baruch formed a company to work on the problem, raising capital, among other methods, by hocking his wife's rings. Two years later they had it licked.

Although more than 50 patents cover the process, and others are being obtained all the time, the principle of the Baruch screw hole is so simple that even I can understand it.

It merely involves putting a lining into a threaded hole to reinforce the threads. This doubles the strength of the threads, so that only half as many bolts or screws are needed. Or you can use the same number but make them twice as small.

In rocketry and other fields where weight is vital, the Baruch screw hole is a blessing indeed. His company now does an 11 million dollars annual business and has plants in six countries.

WHAT OUR READERS SAY

Demanding Probe Of Brutal Attack

The Independent-Journal welcomes contributions to "What Our Readers Say." Letters must be signed and must not exceed 300 words in length. The editor reserves the right to delete malicious material.

EDITOR,
Independent-Journal:

In regards to the incomplete story on May 27 of the Independent-Journal that made headlines, "Two Sent To Hospital After Woodacre Brawl," I want one and all to know that we are demanding a complete and thorough investigation of the wanton and brutal attack upon my husband that left him cut extensively and bleeding profusely.

He finally eluded his attackers and sought help from neighbors we did not know. I want to take this opportunity to thank them for helping him.

I also want to state at this time that the attack did not occur because I was involved (which I was not) in a fracas with another woman as the May 27 story implies. We had left the party after having a nice time and went to our car where a group of young men began harassing us. My husband told me they were looking for trouble and for us to go back to the party quickly.

They followed and the deliberate attack occurred. I saw a young man deliberately break a bottle and aim it at my unsuspecting husband's face, whereupon I jumped in front of my husband and in doing so deceived a deep cut upon my arm. I was hospitalized for five days after major surgery. I still have more surgery to go through plus skin grafting.

I shall carry a disfigured arm for the rest of my days thanks to the manners of some young men nowadays. The May 27 story we believe was a defamation of our reputation.

Why Didn't Drake Nine Get To Play?

EDITOR,
Independent-Journal:

Sports Editor Jim Gilmartin, in his column apparently found no fault in the self-selection of Redwood High School as the lone Marin County representative in its own post-season invitational baseball tournament.

Mr. Gilmartin's words seemed to loan support to the theory that the efforts and financial backing of a group of Redwood parents, the Benchwarmers, had made the tournament possible and, therefore, gave them the privilege of pre-selecting their own team instead of the eventual MCAL champion, whether it be Drake or any other Marin school.

What Mr. Gilmartin failed to mention, however, much less explain, is why the Independent-Journal in its issue of April 12 carried the pronouncement that two Marin teams, the then-as-yet-undetermined champion and Redwood, would play in the tournament. This article was not presented as supposition, nor did it admit of possible contingencies. It was set forth as an actual schedule of games announced by the tournament director.

The schedule listed Hogan of Vallejo and the Marin County champion as opponents for the 2 p.m. tournament opener, with Redwood meeting San Jose at 8 p.m.

I know of no published retraction or correction of the April 12 schedule until more than a month later; in fact, not until Drake had cinched no less than a tie for the championship won by them two days later.

During the month that the Drake players thought they were contesting for the right to play in the tournament as well as for the championship, no one accepted the responsibility to correct the record. With whom did such responsibility rest?

Was it the Independent-Journal for printing statements now considered erroneous; the MCAL directorship for not assuming closer supervision in matters affectting school teams under its jurisdiction; or the Redwood Benchwarmers whose monetary contributions supposedly conferred privileges usually exercised by school authorities?

Mr. Gilmartin also quotes the Redwood coach and tournament director in pointing out that early selection of visiting teams precluded assurance of obtaining a full slate of champions.

This circumstance was completely irrelevant to the selection of an MCAL representative or representatives. The Drake kids, as were players on other Marin teams that might have won the championship, were more than eager to play.

The important question that emerges is: Who will exercise control over future similar high school athletic events in Marin County—the combined school authorities in the best interests of all its student athletes, or a partisan group representing a single school?

Granting that a post-season baseball tournament patterned after the highly-regarded, annual Tournament of Champions is a worthwhile endeavor, and I for one believe it is if directed by the school authorities, then I would like to know what plans have been formulated to date by the MCAL for its 1964 inauguration.

Heated Marin County opposition to a proposed state billboard law that would destroy the existing county control ordinance was considered a factor in causing Gov. Earl Warren to veto the state proposal.

TRY AND STOP ME

BENNETT CERF

On safari in the African jungle, two explorers were privileged to watch a tribal ritual dance. It was dominated by a near-naked seven-footer, his body painted with every color in the rainbow, wearing a hideous mask, and with horns, protruding from his head. As he danced wildly about, uttering terrifying shrieks, an elderly woman in the tribe nudged one of the explorers in the ribs and whispered proudly, "My son, the doctor!"

"How I first met your mother is not a story for little ears like yours," a father told his son from behind the evening financial tables. "But one thing I can tell you. It sure cured me of whistling."

When the late King George V of England was a schoolboy, he found himself one day embarrassingly short of funds and wrote a heartbreaking letter to his august grandmother, Queen Victoria, beseeching pecuniary assistance. The Queen didn't fall for it. Instead, she wrote him a testy note describing what happened to young whippersnappers who exceeded their allowance. Back came a letter reading, "Dearest Grandmama: I am sure you will be glad to know that I need trouble you no further for money. I sold your last letter to one of the tutors for three pounds."

The Steps And Stairs Of Mill Valley Provide Interesting Entertainment

The other day there was wine in the air and we decided to shoot the Mill Valley "chutes."

First we dropped in on H. L. Oliver. For 23 years he has lived in a house on the "library steps." He has no street—just steps—and he said "I never get tired of climbing them . . . We move pianos in . . . It's quiet, taxes are the same."

THEN WE VISITED Daisy Saville. The Nuremberg-born, baby-sitting pianist lives squashed between two white houses along the same steps just behind a blooming lemon tree. She is 17 steps up to Bayview, 44 steps to Lovell.

"This is Mill Valley," chirped Miss Saville. "You have a gorgeous view, morning sun . . . But I like to live on the steps because they keep old peoples' joints from rusting.

"The only problem," she said, "is that the bottled water man can't get his truck up Bayview and won't climb the steps from below." She gave us two lemons from her tree and down the chute we went.

Walking to the Dipsea Trail steps, or Cascade Way, we met Mrs. Adolph Wevang who lives in a redwood house at the foot of the run. She said "we love to greet these people starting on hikes and, sometimes, when they're on their way back bedraggled, we give them water.

"ONE HOT MORNING," she continued, "we found 25 Dominican nuns starting up the trail in white habits for the mountain top. Eighteen out of 25 made it. One said on the down course they had met two men on the mountain. Seeing the nuns, one exclaimed, "Sister, you have given us renewed courage."

Climbing the wooden steps was a man with a white head and beard, carrying a folded newspaper and bouquet of blue flowers. He looked to be 60. Asked if he lived on the stairs, he said, "No, I'm visiting."

Then there was a gray cat with white legs who miaowed but didn't budge from his step, forget-me-nots, redwood cones, a forest of smells.

AT THE TOP Heather Brandt-Bull commented she likes the stairs because she doesn't drive and she can shoot straight down to town in five minutes. It takes 15 to 20 minutes on the upgrade, however.

Mrs. William Sigler on Heuter's Lane said her husband has warned they cannot move until they die because they could never get all their stuff back up the hill. Sigler repairs the stairs himself.

Sixty-one city-owned lanes were counted in a 1953 city lane survey, and 83 others called "unimproved."

City Engineer Stanley Bala says some stairs and lanes are the city's, some belong to groups of neighbors, some to Tamalpais Land and Water Co. and "probably some to nobody."

"ONE MAN TRIED to put a trail into his garden by changing the fence. The neighbors swarmed into city hall to complain. When the trails belong to the neighbors," Bala contined, "there is little chance to lose them since to abandon 25 people must sign the quit claim. In Mill Valley, 25 people can never agree.

"If they are brought up to city standards, now concrete, they are city-maintained. If private or abandoned, the city does not want the liability. I do not advise abandoning. We may need them in 100 years."

In the "old days" according to Lucretia Little, commuters brought their lamps down on the way to catch the train, hung them on hooks at their train stop. They kept brushes there, too, which they used to brush their shoes with before boarding the train. At night they used the lamps to climb the stairs.

Virginia Searles calls the stairs "the chutes." Freddie Hildreth says "they're bad on rainy days." Agnes Gould is "very fond of them." They have official names such as Josephine steps, King, Shady, Cypress, Creek, Chaquita, Portola and Willow Lanes. And unofficial titles as Burt Steps, City Stairs, Brown's Stairs and the Long Steps.

"This is Mill Valley," says Daisy Saville.

THE ALLEN-SCOTT REPORT

Did Harriman, Castro Have Secret Talk?

By ROBERT S. ALLEN and PAUL SCOTT

WASHINGTON—The Senate Preparedness Subcommittee is investigating a sensational report that Undersecretary of State Averell Harriman and Cuban Dictator Castro conferred secretly in Russia.

Both were there in late April, although this extraordinary allegation is the first hint of a meeting between them.

According to detailed information from important Cuban refugee sources, the reputed parley between Harriman and Castro took place around April 28, in either Moscow or Murmansk.

HARRIMAN WAS in Moscow April 25-28, to talk to Premier Khrushchev on the deteriorating situation in Red-threatened Laos. On the basis of a Soviet announcement, Castro was in Moscow on the 28th. From a news photograph released by the Russians, Castro was in Murmansk on April 27. Harriman stopped off in that city on the 28th, on his way out of the Soviet.

Inquiries by these writers at his State Department office, brought a blank reply. Assistants stated Harriman was in Australia, and claimed they knew nothing about a meeting between him and Castro. They didn't deny it, but asserted it was news to them.

THE CUBAN informants told the Preparedness Subcommittee, headed by Sen. John Stennis (D-Miss.), that Harriman and Castro discussed re-establishing diplomatic relations in exchange for a further reduction of Soviet troops in Cuba.

Also that Castro brought up the question of resuming trade between the U.S. and Cuba—which he makes no secret of ardently seeking.

Such a move by the U.S would automatically destroy the extensive trade barriers built up against Castro's Communist regime by members of the Organization of American States. The whole diplomatic and trade battle against Castroism would collapse.

The reputed meeting is taken with utmost seriousness by the Senate committee. The report is being carefully looked into.

State Department and other administration officials are slated to be closely questioned. Meanwhile, the committee is making a thorough study of certain confidential details conveyed to it.

REASON FOR the committee's concern is the impressive source of its admittedly sensational information. One of the informants is a refugee who gave up an important government job in Havana. Other information obtained from these sources has proven valid.

From these refugee sources the senators also have learned that Soviet troops have been secretly moved from their encampments to areas that can not be easily spotted.

HOW TO KEEP WELL

By DR. THEODORE R. VAN DELLEN

Amebiasis Continues As Problem In Many Parts Of United States

VAN DELLEN

Amebiasis continues to be a problem in the United States. In one area in the Southwest, a positive blood test was found in 36 per cent of a random sampling of 100 individuals. This is incredible, even though the area is known to be heavily infested with the parasites.

This disorder, formerly called amebic dysentery, is named after a tiny ameba that lives in the intestinal tract of man. It belong to a primitive class of organism, consisting of a single cell, which multiplies by dividing. In no time, one becomes two, two become four, and four become eight.

THESE CRITTERS enter the body through contaminated food or water. The entire family ought to be examined when one member is found to have the disease. In addition, the water, ice, and food supply should be examined for purity. The afflicted individual must wash the hands vigorously, especially after each visit to the bathroom, to prevent self-reinfection as well as spread of the disease to others.

The ameba settles in the wall of the intestine and produces a small ulcer. The resulting irritation leads to recurring attacks of diarrhea, griping abdominal pains, nausea, and occasionally vomiting. Some infested persons have no intestinal complaints but consult a physician because of marked fatigue, weight loss, or slight fever.

BUT SOME are wholly unaware of the infestation. These people are carriers and pose a dangerous problem when they are none too clean about their personal habits or are professional food handlers.

The diagnosis is made by finding the parasites in the stools. It may be necessary to examine several specimens before positive results are obtained. In one of my patients, the parasites were found in the 11th specimen. A blood test also is available but it is not as specific as the stool analysis.

Atabrine and carbarsone are the best remedies. These are used together but the remedy can be rough because reactions may occur.

(Dr. Van Dellen will send leaflets on amebiasis if stamped, self-addressed envelope accompanies request.)

DISEASED ANIMALS

C. V. writes: What is the disease people get from eating rabbits?

REPLY

You may refer to tularemia, an infection associated with handling (not eating) wild rabbits and other wild life that harbor the causative organisms. Domestic rabbits usually are safe. Send a stamped, self-addressed envelope for leaflet on tularemia.

ULCER TYPE

H. M. writes: My 15-year-old son is just out of the hospital after treatment for a bleeding ulcer. Will he outgrow this condition or will he always have to be careful of what he eats and does?

REPLY

He must be careful for the rest of his life but not to the extent that he becomes an invalid.

THYROID AND CHOLESTEROL

P. D. writes: I'm taking thyroid tablets to reduce a high cholesterol level. Please explain how these pills work on the blood and body to have this effect.

REPLY

We don't know except that this happens after taking certain hormones, including thyroid.

EUPHENISM

M. K. writes: What is a social disease?

REPLY

This term usually refers to venereal contagion but, by definition, might be any disease contracted through overcrowding or poor social conditions.

Interest Rates Rising On Short-Term Loans

By SAM DAWSON

NEW YORK (AP)—Interest rates are rising on short-term loans. The increases stretch all along the line from the U.S. Treasury to lenders to business.

The question is whether this is a passing phase caused by special situations or a definite move by the money managers to tighten up on credit.

They could be acting to brake any incipient speculative flurry that some see starting in the stock markets. Or they could be bolstering the American dollar against foreign pressures stronger than Washington has officially admitted.

Also doubtlessly affecting money management thinking is the switch of late from fears of a recession to belief that business activity is due to expand at a faster rate.

The Treasury this week is paying more on its 91-day bills than it has in three years. The latest rate of 3.028 per cent thus swings higher than the Federal Reserve discount rate of 3 per cent charged on loans to its member banks. This is the basic rate on which banks scale their own charge to borrowers.

If the Treasury rate stays higher, pressure for an increase in the discount rate will be strong. This in turn would affect bank charges, in spite of the ample funds most of them have available for lending to business, to home builders, to seekers of consumer credit.

At the same time the Treasury was finding it must pay more for 91-day loans, private borrowers were finding they must pay more, too. Several sales finance companies raised by one-eighth percentage point the rates on promissory notes they issue and sell to investors. They use the borrowed money for loans to consumers.

Similar increases were made by commercial paper dealers. They sell four- to six-month notes for various industrial concerns and some finance companies.

Bankers acceptances also went up by the same amount. These are drafts guaranteed by a bank. Usually they are issued to finance international trade.

As a sideline to all these increases perhaps, prices of bank stocks generally advanced. Higher interest rates aid them to increase their earnings.

The Treasury probably wasn't too upset at having to pay a bit more on its weekly offerings of 91-day bills. The money managers have been striving for several years to keep yields on short-term loans high enough to discourage the outflow of hot money to foreign shores.

This highly volatile money is the sum idle at any given time and in search of quick in-and-out investment opportunities at the highest return. The flow of hot money to Europe in the past when yields there were much more attractive than here was one of the biggest items in the U.S. deficit of international payments.

The deficit, lasting now for five years, has put pressure on the value of the dollar in world markets, and has from time to time caused sizable loss of the U.S. Treasury's gold reserves.

The rise in short-term rates here could be temporary. And it could be confined to that market without affecting the long-term market where funds available for investment are still reported ample.

But if the interest rate climb reflects a change in policy by the money managers toward tighter credit, the effect could spread in time to the general economy —to borrowing for speculation, for business expansion, for home or commercial building, for building and carrying inventories.

Four Bruised In Car Wreck

Four Novato residents were bruised about 9 p.m. yesterday in a two-car rear end collision on Highway 101 near the Terra Linda interchange.

The car of Nicolini Terlizzi, 42, of 41 Lauren Avenue, Novato, was hit by that of Carl Burton Jr., 35, of 203 Auburn Street, San Rafael, the California Highway Patrol reported.

Terlizzi, his wife Lucille, 38, and Lorraine Medieros, 36, and Hele Medeiros, 42, both of 1955 Novato Boulevard, Novato, were to see their doctors. Burton was cited for speeding.

San Rafael Building Activity Is Reported On The Increase

San Rafael construction activity is going up in leaps and bounds, and that's nice to hear—but if it keeps the same pace, chief building inspector **Andrew A. Thomas** is going to need another man in his department to take over some of the load.

Thomas notes that building valuations in San Rafael during the past 11 months have already exceeded those of the preceding fiscal year by five million dollars — and there is still the month of June to be accounted for. That figure, by the way, is a high for what one inspector can inspect over a year's time, and Thomas' staff of five is now doing more per man. Valuation of starts January through May totaled $14,690,358. It was less than half that in the first five months of 1962.

Without additional help there will be a longer wait on checking out plans—and that's bound to develop some unhappy developers.

SEVEN MODEL HOMES in the luxury yachting subdivision **Paradise Cay** are now open for inspection. Furnishings are by **Casa Marin.** A special showing of Marin Society of Artists modern paintings is exhibited in one of the homes. Developer is **Tim Mosely,** former San Rafael resident active in Bay Area yachting circles.

FIRST 36 UNITS at **Harbor Hill** apartment development off Tiburon Boulevard at Lyford Drive are now completed and ready for leasing. The units, contained in six separate low-rise buildings, vary in size from one-bedroom, one-bath apartments to three-bedroom, three-bath dwellings, many with fireplaces. All have private decks, high ceilings, electric kitchens, individual heating controls and heavy soundproofing.

Leasing agents and property managers are **Grubb and Ellis Co.,** Oakland real estate brokers. A resident manager is showing model apartments daily.

EDWIN SINCLAIR of Belvedere has been promoted to assistant general agent of the Linwood L. Meacham general agency in San Francisco for **John Hancock Mutual Life Insurance Co.** He joined the agency in July, 1962, as a supervisor and is president of Leading Life Insurance Producers of Northern California.

MODEL CARRIER. **Lee Spangler,** 9, of Mill Valley not only is a typical Independent-Journal newspaperboy but he is also making the rounds of the nation's top 200 newspapers as a model in a current Clorox Bleach advertisement. You may have seen a copy of the ad in our own issue of last Wednesday. It will soon appear in full color in national magazines.

A fifth-grader at Homestead School, Lee was paid the regular professional model fee. His father is a copywriter with **Honig-Cooper and Harrington,** San Francisco advertising agency.

Besides modeling, Lee also builds models.

Remember Ferryboat Colorful Past?

The old Northwestern Pacific Railroad ferryboat Eureka, which once carried Marin County commuters to San Francisco, is now being refurbished for display at the State Historical Maritime Monument in Aquatic Park, San Francisco.

But researchers have failed to discover just what colors were used on the pine tree emblem on the boat's paddleboxes. Oldtime commuters who remember have been asked by project superintendent Harry Dring to contact him at Aquatic Park if they know the correct colors.

Parking Of Commuter Car On Tap In Fairfax

Whether commuters should be allowed to park their cars all day in the Fairfax parkade will be discussed when the Fairfax City Council meets at 8 p.m. today in the city hall.

The council will hear a letter from Gordon B. Adams of the Fairfax Merchants Assn. asking that some commuter parking be allowed in the parkade off Sir Francis Drake Boulevard. The council at its May 28 meeting voted to cut parking there from an all-day limit to two hours.

Also on the agenda are requests from two San Francisco television firms to take over the franchise for antenna "booster" service offered in Fairfax by Bob's TV and Sound of San Rafael. Bob's TV has asked a raise in rates from $3 to $4.50 per month for each subscriber.

Television Signal Corp. of San Francisco has offered to install an antenna in the Deer Park area to provide service there. The second firm is Bill's Radio and Television of San Francisco.

Representatives of two San Francisco architectural firms will appear at the meeting to discuss possibilities of building new city buildings in Fairfax. The firms are Simpson, Stratta & Associates, and John Goodhue Clay.
